Believes We Seek Peace

He Sails for Home After 13-Day Visit To United States; Wishes US Success

NEW YORK (AP)—Soviet Foreign Minister Molotov said today he was convinced that "many, many people" in the United States, as well as in Russia, wish peace.

Just before sailing for home after a 13-day visit, Molotov wished "the American people peace and prosperity."

"First of all," he said in a statement, "let me express gratitude for the warm reception and attention given the delegation from the Soviet Union. We are convinced that here in the United States of America, as well as in the Soviet Union, there are many, many people who wish to live together in peace and amity."

"Please tell the American people we wish them peace and prosperity."

Molotov made his brief statement in Russian through a loud-speaker on the pier before boarding the liner Queen Elizabeth. A member of his party translated it into English.

When he arrived at the pier he ignored half a dozen pickets who booed him. The pickets said they were from the "Brooklyn section of the anti-Communist organization."

The Soviet foreign minister, wearing the smile of the "affable, new Molotov," arrived in New York yesterday after attending the United Nations' 10th anniversary celebration at San Francisco.

He immediately plunged into a busy schedule which included a luncheon with financier Bernard Baruch, a visit to a museum (the third on his present trip) and a three-dimensional movie.

At the luncheon at Baruch's Long Island mansion he was offered a vodka tomato juice cocktail called "Bloody Mary." He said he liked it and even drank half of it.

The 65-year-old Soviet diplomat was the one who suggested the meeting with the Baruch, author of the first plan for international control of atomic energy. The plan was never accepted by the United Nations because of Soviet objections.

The luncheon meeting was private. It was learned, however, that Molotov renewed his previous invitation to Baruch to visit the Soviet Union. He reportedly got no commitment from the 84-year-old elder statesman and former presidential adviser.

Earlier in the day, Molotov made a tour of the American Museum of Natural History, where he expressed particular interest in dinosaurs, cast and an exhibit showing rotation of farm crops in Dutchess County, N.Y.

Missourian's Home Is Object of Bombing By Tunisian Rioters

TUNIS, Tunisia, (AP)—A Missourian's home was an object of terrorist bombings here yesterday.

The front of the U. S. Information Center was blown out and an attempt was made to blow up the suburban home of U. S. vice consul Howard Hill, a native of Richmond, Mo. But the fuse on a bomb planted in Hill's home fizzled out.

Police said the unexploded bomb at Hill's home was intended to go off about the same time as the one at the Information Center but the fuse burned only about half way to the explosive.

Hill's home is in Lamarsa Village, about 10 miles from here.

He was absent when a servant found the bomb and called police. Hill, 31, is the son of Nelson Hill, publisher of the tri-weekly Richmond News.

Hill's wife, Roberta, is with him here. She is from New Iberia, La.

We're Catching Up

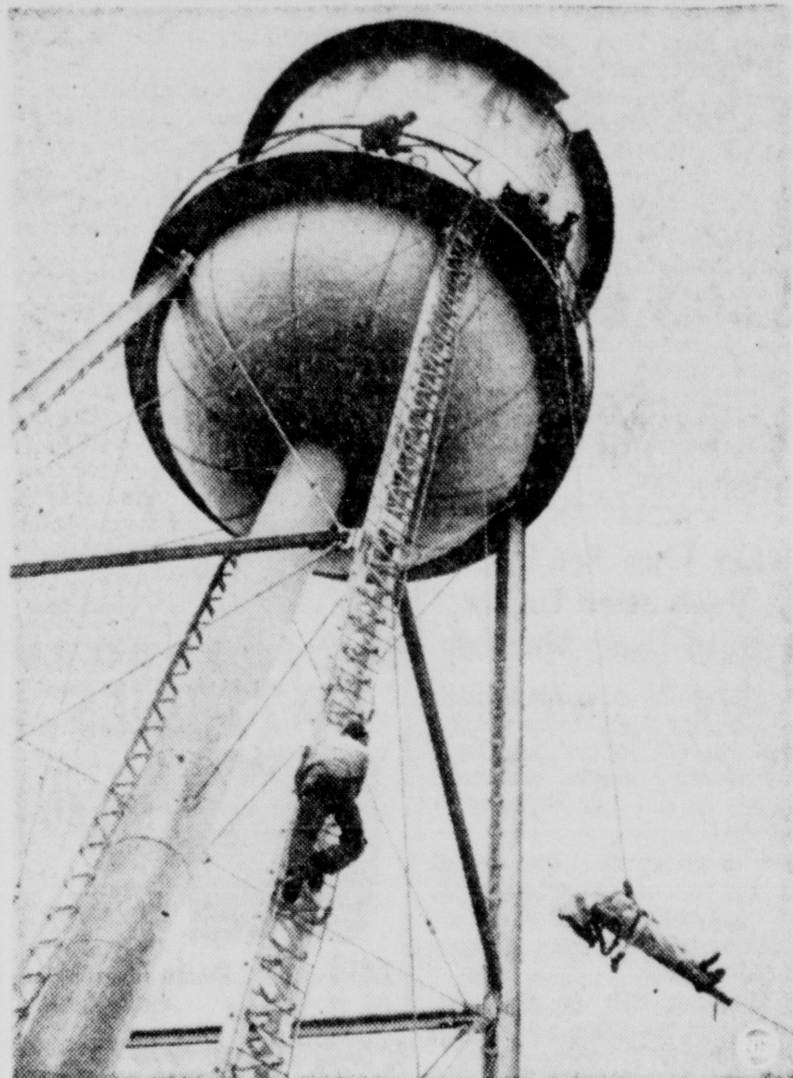

It's one of those days where it feels as if it should rain any minute but never gets around to it. Maybe that's just because we're finally catching up with true summer heat.

Partly cloudy with very little change in temperature tonight and Thursday. Chance of scattered showers tonight. Low tonight near 65; high Thursday in the 80s.

The temperature at 7 a. m. was 71, 78 at 1 p. m. and 80 at 2 p. m.

The temperature one year ago today, high 102, low 73; two years ago, high 97, low 72; and three years ago, high 102, low 75.

Stage at Lake of the Ozarks 57.5, rise 4.

RESCUE ALOFT—Gary Nolen, 25, water town maintenance man, is lowered from 180-foot tower near Grandview, Mo., after he slipped and fell from the tower to a narrow catwalk, still 150 feet above the ground. Rescue workers from nearby Grandview Air Force Base started him to a ladder to lower him when it was feared he had suffered a back injury in addition to an injured leg. (NEA Telephoto)

Wortman At Mackinac for 'Vacation'

Michigan Police Have Not Received Request for Pickup

MACKINAC ISLAND, Mich. (AP)—Frank (Buster) Wortman, sought for questioning in a gang-style killing in Illinois, arrived at this resort island today for a vacation. He was reported "resting" at the Grand Hotel and not available for comment on an arrest order issued for him last Thursday in East St. Louis, Ill.

The order came a day after the bullet pierced body of J. Fred Koenig, convicted black market operator, was found stuffed in his car trunk. Illinois authorities said earlier they had not been able to locate Wortman, reputed rackets boss in East St. Louis.

Detective Capt. Edward Johnson of the Michigan State Police said he had received no request from East St. Louis police "or anyone else" to pick up Wortman. He added, "If they ask us, we'll pick him up fast but right now, as far as we are concerned, he is just another tourist."

Wortman was photographed by a St. Louis Post-Dispatch photographer just before he boarded a train in St. Louis. The St. Clair County, Ill., sheriff's office had been tipped earlier that Wortman was leaving on a vacation trip to Mackinac Island, Mich. But deputies sent out from the office to pick him up said they couldn't locate him.

A reporter who tried to interview Wortman at St. Louis Union Station said Wortman responded only with profanities. Wortman was accompanied by members of his family.

Police Commissioner Russell T. Beebe, whose office issued the arrest order for Wortman, said he would let Police Chief George Dowling decide whether to seek the arrest of Wortman in Michigan.

Dowling said today he was unable to ask for Wortman's arrest in Michigan since there were no grounds for a formal charge against him. He was wanted only for questioning.

Law enforcement authorities, at a meeting Monday, agreed to crack down on horse racing news services operating in this area and also to co-operate in trying to solve a series of gang-style shootings, including the Koenig killing.

Koenig, one-time St. Louis politician, was reported to have operated a "clearing house" service for horse racing information from his apartment here until last April 1. Police said he had complained openly and vigorously about getting a "raw deal" in being forced out of the operation.

Gives Some Details Of Highway Program

WASHINGTON (AP)—Rep. Frank Smith (D-Miss.) today disclosed some details of a highway program drawn up by House Democrats and declared himself against one of its financing proposals—a cent boost in federal gasoline taxes.

State Employment Up

JEFFERSON CITY (AP)—Missouri industries had 1,256,000 workers in May, the State Division of Employment Security reported today.

That was 3,100 more than in April and 4,900 above the May, 1954, level. The increase, about a third of it in manufacturing, was attributed to seasonal work.

House Members Balk On Defense Budget

WASHINGTON (AP)—House members balked today at extra millions of dollars which the Senate had voted for the Air Force and Marines.

As a result the Senate-House conference committee appointed to adjust differences in the 32 billion defense appropriation recessed at midday without reaching a final compromise.

Conferees said they accepted a Senate rider that will prevent shutdowns of the Army-Navy Hospital at Hot Springs National Park, Ark., and the Murphy General Hospital at Boston.

Local People Attend Social Welfare Meet

The annual meeting of the West Central Division of the Missouri Association for Social Welfare will be held at the Missouri Hotel in Jefferson City on Thursday, June 30.

"The theme of the meeting will be what is wrong with Missouri's public schools and what we, as citizens, can do about it," said Dr. L. Avery Fleming, Warrensburg, division chairman, in announcing the program.

State Senator C. R. Hawkins, Brumley, will be the luncheon speaker. Senator Hawkins served as chairman of the Joint Legislative Education Study Committee which made a study of school problems and which offered several bills to correct the problems during the 68th General Assembly.

The Rev. Mr. Edward R. Sims, rector of Calvary Episcopal Church of Sedalia, will preside at the meeting.

The meeting is open to the public and reservations for the luncheon meeting can be made through the state office located at 113½ West High St., Jefferson City.

The Missouri Association for Social Welfare is a citizens' organization working to improve health and welfare services for all Missourians through a program of research, education, statewide planning, and citizen action.

The West Central Division is comprised of 12 counties located in the western and central part of the state.

A panel discussion on special problems in the schools will be held during the afternoon.

Those attending from Sedalia will be the local welfare staff of the State Division of Welfare.

Shooting Local Matter

This Is Opinion Of Ike at a News Conference; Chides Democrat Congress

WASHINGTON (AP)—President Eisenhower said today he was sure the Russians' shooting down of a U.S. Navy plane was a local occurrence and not a matter of policy.

The President's statement was made at a news conference at which he also chided the Democratic-controlled Congress for leaving undone, as he put it, a long list of his legislative proposals—some of them, he declared, vital to the nation.

In discussing the plane incident, Eisenhower went somewhat further than did Secretary of State Dulles who had said yesterday that he believed no deliberate Soviet policy was involved.

Eisenhower said it is very encouraging to note the attitude taken by the Soviet government which has expressed regret for the incident and offered to pay half the damage.

The United States has not accepted the Soviet offer.

The President's remarks about the way the Democrats in Congress have treated his legislative program were, in effect, a reply to Democratic Senate leader Lyndon Johnson, who cited Congress' record yesterday as disproving the President's 1954 campaign declaration that election of a Democratic Congress could lead to a political cold war.

Eisenhower reeled off a list of legislative proposals on which he said the Democratic controlled Congress has failed to act.

Also on the domestic front: Second term—Eisenhower said with a laugh he was only kidding when he dropped some apparent hints during his New England trip that he might be thinking about seeking a second term.

Dixon-Yates—Eisenhower said the administration has turned over to Congress every pertinent paper on the controversial power project but that he flatly refuses to let investigators look at the administration's files with all their confidential data on individuals.

Budget Director Rowland Hughes refused yesterday to let Senate investigators inspect unpublished documents relating to the Dixon-Yates contract. Sen. Kefauver (D-Tenn.) in a Senate speech accused the President of seemingly trying to cover up "a shocking piece of duplicity" in negotiation of the contract.

Security—Eisenhower said he has no objection to the proposal in Congress for a bipartisan commission to investigate the government's loyalty-security program. This administration, he said, has nothing to hide and is willing to cooperate with any properly constituted investigating body. Previously Eisenhower had said he saw no need for such a study.

The Senate has voted for creation of such a commission but the House has not yet acted.

State Ranks Second In Auto Production Just After Michigan

ST. LOUIS (AP)—Missouri ranks second only to Michigan as an automobile producer, a group of civic workers and business men were told today at a luncheon.

W. G. Power, advertising manager of the Chevrolet Motor Co., said the latest state-by-state survey of auto production shows Missouri produced a total of 523,371 vehicles last year.

This represented nearly 10 per cent of the national volume and put Missouri 50,000 units ahead of California, the third ranking producer, Power said.

The 33rd millionth Chevrolet rolled off the production line today at the Chevrolet plant here and was donated to the St. Louis United Fund by the company's dealers in this area.

Penney Sale Expected To Exceed A Million

HAMILTON, Mo. (AP)—Proceeds of the Aberdeen-Angus cattle sale at the Penney & James Homeplace farm are expected to exceed a million dollars.

The sale was being completed today with the last 152 of the black cattle going on the auction block. They were to be followed by 80 head of Holstein dairy cows.

In the first two days of the sale \$955,800 was paid for 345 Aberdeen-Angus.

J. B. McCorkle, sale manager, said it will be "the top sale in the history of the breed and one of the largest of any breed."

J. C. Penney, head of a chain store firm, is getting out of the cattle business and plans to sell his 10 Missouri farms.

Will Combat Fatal Disease--

Local Dystrophy Organization Receives Charter Tuesday Night

The meeting of the Pettis County Muscular Dystrophy Association held Tuesday night at the assembly room of the courthouse was well attended and the charter for the new organization was presented to the president, Mrs. Lily Thomas, by J. A. Sheridan, national representative of the Central Regional District.

Mr. and Mrs. Sheridan, who came down from Warrensburg for the meeting, have more than just a sympathetic feeling toward this great project which in the last few years has become nationwide. The life of their 12-year-old son, their only child, is at stake, and so far the only ending to the story of muscular dystrophy is death.

Parents who are watching their children grow more helpless day by day until they cannot even brush a fly from their faces are calling out in despair to people of their community and other communities everywhere for help, help in the way for money to finance the research that may bring a cure for this dreadful disease.

A film, provided by Mr. Sheridan and shown by Mrs. J. F. Schumacher, entitled "Today and Tomorrow," gave the story of the various stages of the disease from the first when the youngsters seemed to be only awkward, stumbling around, to the place when they are perfectly helpless and death comes at an early age. In the picture were only little boys and this disease, which could happen in any family at any time, seems to strike boys more than girls, three times as many boys have it as girls.

A short business meeting was held and Mr. Sheridan assisted in outlining a campaign for members which will be held Nov. 21 to Nov. 25, which is Thanksgiving Week, a week in which families that muscular dystrophy has not touched will have something truly to be thankful for.

The Missouri Pacific Women's Club will sponsor an ice cream social on the courthouse parking lot from 4 to 10 p. m. July 14, with all profits to go to the new Muscular Dystrophy chapter.

CBS Reporter Admits Aiding Communists

WASHINGTON (AP)—Winston M. Burdett, now a news correspondent for the Columbia Broadcasting System, told Senate investigators today he once was a Communist and had engaged in espionage abroad.

Burdett, testifying before the Senate Internal Security subcommittee, said he joined the Communist party in August, 1937, while working on the Brooklyn Daily Eagle. He said he broke with the party in March, 1942.

Sen. Eastland (D-Miss.), the subcommittee chairman, asked Burdett if he had ever engaged in espionage.

"I did, sir," replied Burdett.

"When?" asked Eastland.

"After I went abroad in February, 1940," Burdett replied, adding that he had asked to go to Finland on an assignment that would be "useful" to the Communist party. After reaching Europe, he said, he was contacted by the Communist underground.

That was before he went with CBS. He said he went overseas as a roving correspondent for the Eagle, paying his own expenses.

Burdett said that while he was working as a reporter for the Eagle there was a Communist party unit there.

Recommends Support For Rail Passengers

ATLANTIC CITY, N.J. (AP)—The chairman of the Interstate Commerce Commission proposed a "passenger support" program aimed at helping pay what he calls huge deficits incurred annually by the nation's railroads in operating passenger trains.

Speaking yesterday at the annual meeting of the accounting division of the Assn. of American Railroads, Richard Mitchell said he wouldn't apply the word "subsidy" to his suggestion.

His speech did not elaborate on what he meant by "passenger support" but later Mitchell told newsmen he was thinking of something similar to the present government price supports for agriculture.

Furnace Banking Started

In Preparation For Expected Strike Midnight Thursday, As Talks Continue

PITTSBURGH (AP)—The steel industry, fearing a strike at midnight tomorrow night, began banking giant blast furnaces today.

Peace talks were expected to resume today, and some industry sources were optimistic. But a few were gloomy.

No one was talking for the record, but a few industry sources said privately they believed a new wage offer would be made.

Both U. S. Steel Corp., the largest producer, and Bethlehem Steel, No. 2 in the field, began banking operations.

CIO United Steelworkers union president David J. McDonald sharply criticized Clifford Hood, president of U. S. Steel.

McDonald issued a statement saying Hood "has falsely charged the union of forcing an unnecessary strike on the nation."

But McDonald said "there still is time to conclude a settlement."

McDonald requested the top officials of the steel industry to carry on the negotiations. He named: Roger M. Blough, chairman of the board of U. S. Steel; Eugene Grace, chairman of the board of Bethlehem Steel; Charles White, president of Republic Steel; Ben Moreell, chairman of the board of Jones and Laughlin Steel; J. L. Mauthe, president of Youngstown Sheet & Tube; and Joseph L. Block, president of the Inland Steel Co.

McDonald, in a prepared statement, added:

"If Mr. Hood were participating in the negotiations instead of spending his time going over publicity releases in his headquarters, he would know that the steelworkers union is doing everything within its power to avert a nationwide steel strike."

"We call upon Mr. Hood and other leaders of the industry x x x to join us in the practical task of hammering out an agreement that will be just and fair to the industry and to the public."

McDonald said genuine collective bargaining "with the real people in authority" is the only way a settlement can be made.

Meanwhile, a U. S. Steel spokesman said the firm expects to complete the huge furnace banking operation before the union's strike deadline.

Employees of other companies in the mammoth basic steel industry have been alerted to begin orderly shutdowns.

Banking of the giant blast furnaces is a gradual process, slowed to prevent damage in the cooling process.

The CIO United Steelworkers mapped showdown talks with the producers in last-minute efforts to get a wage higher than presently offered.

Grand Jury Indicts Police, Alderman On Beating Two Youths

ST. LOUIS (AP)—A federal grand jury yesterday indicted a former suburban Kinloch alderman and three suspended police officers for violating the civil rights of two young prisoners.

Named in the indictments were Milton Crenshaw, who has resigned his aldermanic post; Capt. Cornell McGee and Patrolmen Willie Kincaid and Roosevelt Thomas.

The indictment charges the two 19-year-old prisoners, Roosevelt Wilder and John Willis, were beaten last Feb. 26 with a rubber hose and a fiber rope "for the purpose of depriving them of constitutional rights."

Maximum penalty on each of two counts in the indictment is a \$1,000 fine or one year in jail or both.

Escapee Given Life After Killing Head Of Florida Prison

LAKE BUTLER, Fla. (AP)—Hard, dangerous George A. Heroux Jr., 25, has been sentenced to spend the rest of his life in Florida State Prison, where he killed the assistant superintendent in an attempted break.

A 12-man jury convicted him of first-degree murder yesterday but recommended mercy. The state had sought his death for the killing of J. C. Godwin, 56, last April.

Three witnesses, including one of two guards wounded by Heroux in the shooting, testified that Heroux ran down Godwin and killed him.

Heroux, under 50 years sentence for two Kansas bank robberies and for kidnapping two Miami policemen, had been placed in solitary confinement by Godwin two weeks earlier.

Heroux's gun, a .25-caliber pistol, had been smuggled in to him by his former wife Ruth and her husband Raymond Staffa. They are awaiting sentence upon their pleas of guilty to aiding and abetting an attempted escape.

House Group Changes Aid to GI's Survivors

WASHINGTON (AP)—A special House committee has unveiled its final draft of sweeping proposals aimed at bringing more order to the present hodgepodge of federal payments to the survivors of servicemen.

The final version, announced yesterday, differed only slightly from an earlier draft that won strong support from the Pentagon.

Two of the major changes would bring servicemen under the regular social security system and eliminate their present \$10,000 free life insurance.

Other benefits would be reshuffled, for the most part, increased.

Frank Bruno to Make Another Attempt To Escape Deportation

KANSAS CITY (AP)—Another effort by Frank A. Bruno, convicted narcotics peddler to escape deportation to his native Italy, has been taken under advisement by U.S. District Judge Charles E. Whittaker.

After a hearing on Bruno's petition for a habeas corpus, Judge Whittaker gave his attorneys 30 days to file briefs.

Bruno, convicted in 1934, was ordered deported last March 15. His petition alleges the attorney general abused discretionary powers in not setting aside the deportation order.

This is the same grounds alleged by Nicolò Impastato, another narcotics offender. His hearing is awaiting the outcome of a bill introduced in the Senate.

Sen. Mansfield Urges Watch on Intelligence After Hoover Report

WASHINGTON (AP)—Sen. Mansfield (D-Mont.) today cited the Hoover Commission's criticism of the government's secret intelligence network as support for his plan to set up a special congressional committee to keep watch on such activities.

The 12-man commission, in a report based on a special study made by a group headed by retired Gen. Mark W. Clark, said last night this country is not getting "adequate data from behind the Iron Curtain."

It called for "greater boldness at the policy level" and said that in the Central Intelligence Agency the Clark group found "certain administrative flaws" calling for "an internal reorganization." It did not spell out details.

Mansfield for some time has been plugging for creation of a congressional committee, somewhat like the Senate-House Atomic Energy Committee, to keep a continuing watch on CIA's operations.

Firms In Atom Exhibit

WASHINGTON (AP)—The Atomic Energy Commission said today approximately 150 American firms and organizations will be represented by exhibits at the international "atoms-for-peace" conference at Geneva Aug. 8-20. This, AEC Chairman Lewis L. Strauss said in a statement, is "vivid evidence of the partnership of government and private enterprise in developing peaceful uses of atomic energy."

Pressure Up To End Threat Of New Strike

By THE ASSOCIATED PRESS

Negotiations stepped up on four Western fronts today as representatives of the "Big Four" copper producing companies sought to avoid threatened strikes that might cripple industry throughout the nation.

Separate contracts with the firms are being negotiated by local officers of the Independent International Union of Mine, Mill & Smelter Workers. The pacts expire at midnight tomorrow.

The union, which has headquarters in Denver, says between 50,000 and 60,000 members are affected. Though separate strikes are strong possibilities, the union has asked members of its national Wage Policy Committee to determine whether a nationwide strike of the nonferrous metals industry should be called Friday. The strike would be contingent upon settlement of new wage contracts by midnight June 30.

Results of that poll have not been tabulated, said a spokesman for the union, which was expelled from the CIO in 1950 for alleged Communist domination.

Meanwhile, negotiations continued at Butte, Mont.; Douglas, Ariz.; Salt Lake City; and San Francisco.

At Butte, a member of the Federal Mediation Board said the Anaconda Copper Co. has extended by four days the deadline—originally set for 3:30 p.m. last Monday—for acceptance of its wage increase offer of 10 cents an hour. The new deadline is 3:30 p.m. Friday.

The offer is half that demanded by representatives of Mine-Mill workers at Great Falls, Anaconda, East Helena and Butte. The locals already have once rejected the 10-cent offer. They also seek benefits including a variation of the guaranteed annual wage.

A joint bargaining committee representing eight unions and 4,500 Utah employees is negotiating at Salt Lake City with officials of the Kennecott Copper Corp.

The outlook was similarly gloomy at San Francisco, in talks involving the American Smelting & Refining Co., and at Douglas, Ariz., with Phelps-Dodge Corp.

Billy Graham Sets Aim For Netherlands Next

DORTMUND, Germany (AP)—Billy Graham trained his sights on the Netherlands today after winding up a six-city revival tour of West Germany.

The American evangelist closed his weeklong German crusade last night, preaching to a crowd of 25,000 in this industrial Ruhr city. He speaks in Rotterdam tomorrow, in Oslo, Norway, July 3, and in Göteborg, Sweden's second largest city, July 5.

He also has scheduled a revival meeting in Geneva, Switzerland, July 17, on the eve of the opening there of the Big Four summit conference.

Flee from Communism

HONG KONG (AP)—Some 1,400 Singapore and Indonesian Chinese—about 1,000 of them pro-Communist students and the rest mainly destitute families—crossed the Hong Kong border into Red China today. Chinese newsmen said it was one of the largest groups of overseas Chinese to pass through the British colony for China since the Communists took over.

Second Aide Of Peron Wants to Quit

BUENOS AIRES (AP)—A second top aide of Argentine President Juan D. Peron reportedly has decided to step out in the aftermath of the June 16 revolt. He is Angel Gabriel Borlenghi, who as interior minister played a major role in the government's anticommunist campaign.

Reliable sources said last night that Borlenghi, 49, has decided to retire from public life "because of ill health." The informants said he told visitors yesterday he would soon make a trip abroad.

The reports of Borlenghi's retirement came a day after Eduardo Vuletich, secretary general of the powerful General Confederation of Labor, was said to have stepped down in favor of his assistant, Hector Hugo de Pietro. Vuletich also was active in the fight against the Roman Catholic Church.

Peron conferred with both Vuletich and De Pietro at his residence yesterday and later received the CGT council and secretariat. The labor organization, which claims six million members, is the backbone of the Peronista movement.

In separate conferences, Peron also talked with Foreign Minister Jeronimo Remorino and the army minister, Maj. Gen. Franklin Lucero, who was given control of all Argentine forces following the recent uprising by navy and Marine units.

Sedalia Well Represented at Boys' State By Three Active Young Representatives

Sedalia was represented at Missouri Boys' State, held in Warrensburg, on the campus of Central Missouri State College the past week by Bob Mason, son of Mr. and Mrs. Herbert W. Mason, 1810 West Broadway, sponsored by the Kiwanis Club. During the session, Bob Mason was a member of the Nationalist Party, and was a citizen of Doniphan City. During the city and county elections he was nominated

for playing on the team that finished second among the ten teams competing.

Jim Swafford was a member of the Federalist Party, and a citizen of Crowder City. He was a committeeman and was defeated in his race for Attorney General. He was a practicing criminal lawyer.

Walter Kennon was a member of the Federalist Party, and a citizen of Coontz City and Scott County. He was elected city treasurer and county committeeman. He was a member of the Coontz City basketball team, which placed third among the ten teams playing. He placed second in the shot put and third in the high jump at the track meet. Coontz City received second place in the overall athletic program.

Bob and Walt received certificates for successfully passing the legislative examination of Missouri Boys' State. They were both members of the legislative school. Jim received a certificate for successfully passing his bar examination. He was a member of the law school.

All three boys think they received excellent training in citizenship. They also studied government at all levels. There was so

much to do and they were able to make friends from all over the state. Walt said that after being elected to city and county offices, he had to retire from politics, because it took so much of his time and he wanted more time for the legislation school and athletics. The boys wish that more of their classmates could have had the opportunity of attending Boys' State, since Columbia sent 15 boys, Joplin 14, and Jefferson City 18. It is their hope that Sedalia will sponsor more boys in the future. Bob Mason is so enthusiastic that he hopes he can serve as an assistant counselor next year.

The hottest thing this summer won't be the weather...

...it'll be sales! Do you know that people buy more in Summer months than most other months of the year? No wonder, since, as surveys show, more than 90% of the people are at home on an average day during the Summer! Do you know they'll spend more than 43 billion dollars this Summer?

Whatever you sell, sell it all Summer long. And to everybody in the area who can possibly buy! That, of course, means in newspapers.

There's no summer replacement for the newspaper! People keep on reading the newspaper all Summer long—for news, for amusement, for the advertising.

The surest way to reach the most customers, most often, most effectively, is in the newspaper. If you haven't already planned a steady series of Summer selling ads—call us today!

Fruit Grower Blasted Nation In Speeches

LOS ANGELES (P)—The story of how a southern California fruit grower went to Red China in 1953—backing Communist claims of U.S. germ warfare in speeches he made on the way—was told before a House Un-American Activities subcommittee hearing.

The subcommittee counsel, Frank Tavenner, outlined the trip in questions he put to Hugh Hardyman, 53, of La Crescenta and Topanga, Calif., when Hardyman appeared before the panel yesterday.

Hardyman refused to answer. He was the last witness of a series that include actress Angela Clarke and a Korean-born Los Angeles resident, Diamond Kim.

Miss Clarke and Kim cited the First and Fifth amendments in refusing to answer questions about

DeMille's Son Weds

LOS ANGELES (P)—Richard de Mille, 33, adopted son of film producer Cecil B. de Mille, and Mrs. Margaret Belgrano van Fossen, 30, obtained a marriage license yesterday.

Communist activities. Hardyman cited these and, in addition, the Fourth, Ninth and Tenth amendments.

Tavenner said that Hardyman went to Peiping by way of Paris, Czechoslovakia and Russia in 1952-53 as a delegate to a Communist peace conference. He said that Hardyman made talks in China, Czechoslovakia and Poland which backed Red claims that the United States waged germ warfare in Korea.

Hardyman, English-born, was naturalized in 1927. Rep. Clyde Doyle (D-Calif.), subcommittee chairman, termed the alleged speeches "a shameful attack on the country that gave you citizenship." He told the witness: "I am ashamed of you."

IN CASE HE FORGOT—No question about who welcomed Cpl. Lee C. McDonald back home from the Far East. His parents, sisters, girl friend and assorted cousins were on hand—with identification cards—when the soldier arrived in Seattle, Wash., aboard the Navy transport Marine Serpent.

Civil War Veteran Objects to Watching

TEMPLE, Tex. (P)—Walter Williams, 112-year-old Confederate veteran from Franklin, Tex., said he wasn't about to sit on the sidelines but would ride in today's parade celebrating the 75th year of the Santa Fe Railroad in Temple.

Williams, advised yesterday he was expected just to sit and watch, said no, he was going to ride in the parade. After all, he was approaching middle age when this young whippersnapper of a town was born.

Williams, a forage master for Hood in the Civil War, will be presented a battle flag from Texas' Hood's Brigade.

Actress Has Surgery

OXNARD, Calif. (P)—Movie actress Loretta Young undergoes surgery today for abdominal adhesions.

Draft Laws Awaiting Eisenhower's Okay; Debate Reserve Bill

WASHINGTON (P)—Legislation to extend the regular draft and the doctors draft—both of which otherwise would expire at midnight tomorrow—went to the President today for signature.

And the President's disputed military reserve program, in a new and modified form, was ready for House consideration, possibly in a few days.

Congress completed action on the draft bill yesterday. The House passed it 388-5, and the Senate approved it by voice vote.

The measure extends the regular draft of 18½-year-olds for another four years and of doctors and dentists under the age of 46 for another two years.

Charged With Murder For Causing Death

MOBILE, Ala. (P)—A New Orleans Negro has been charged with murder in the death of a girl companion he admitted setting fire to during an argument in a tavern.

Betty Jean Watts, 19, died yesterday of burns on about 70 per cent of her body. Willie Jackson, 23, admitted in a signed statement that he dashed gasoline on her last Thursday and then tossed a match.

Detective Harry Simmons said Jackson told him he was angry because persons in the tavern laughed at remarks the girl made during the argument.

Correspondent Thinks Reds Had Wife Shot

WASHINGTON (AP)—Winston Burdett testified today he is convinced the Russians "assassinated" his first wife because "she knew too much."

Mrs. Lea Schiavi Burdett, a news correspondent, was killed in Iran in April, 1942.

Burdett, a Columbia Broadcasting System newsman, told the Senate Internal Security subcommittee of her death after first giving an account of spying he said he had done for the Communists.

Her death, he said, came a month after he had broken finally with the Communists, and when she was in Iran and he in India on an assignment by CBS.

Here is the story, as related by Burdett:

While in Iran, she decided to visit the Russian-occupied sector to the north where she received information the Soviets were training partisans who would revolt under the leadership of Tito and thus insure that Yugoslavia would fall into the Russian orbit.

The Russians didn't want the Allies to know of this plan, so they hired a Kurdish tribesman in northern Iran to kill her.

This, Burdett said, the tribesman did while she and her companions were en route back from a visit to a Kurdish leader.

At the time, a State Department announcement here said she was shot and killed by highwaymen who attacked her automobile.

The announcement identified Mrs. Burdett as correspondent for PM, a New York newspaper now defunct. She was an Italian journalist when she married Burdett.

Damage resulted to the left door and rear quarter panel on the Paxton auto and to the right front fender of Frankfield's vehicle.

New Betsy Ross Flags

CAMBRIDGE, Mass. (AP)—Too many little red flags went up for Betsy Ross, Radcliffe College student and namesake of the woman credited with making America's first flag and Radcliffe's Betsy paid a \$10 fine.

The fine was imposed in District Court after police testified her car was parked 18 times beside parking meters where the little red flag showed overtime parking.

Rescue Craft Down In Sea; Pilot Missing

TOKYO (AP)—A Marine helicopter searching for two downed Marine pilots drifting helplessly in the Pacific more than 72 hours crashed in the sea today and one of its crewmen is missing, the Navy said. Three others were rescued.

The vast armada of searching planes and ships continued hunting the first two raft-borne pilots. Contact was lost, however, with their feeble radio.

Last night, a Marine Fury disappeared in the search and its pilot, Lt. Alan M. McAneny of Yonkers, N.Y., is missing also.

In the 20,000-square-mile search area, a bright June sun burned away the fog that repeatedly has closed in and prevented rescues after planes glimpsed the bobbing life rafts of the first two downed pilots. But a freshening wind has kicked up a heavier, more dangerous sea.

The three men rescued from the helicopter were not injured, the Navy said. They were identified as 2nd Lt. Robert Eugene Suedes, son of Robert W. Suedes, Eathan, S.D.; Cpl. Kyle Wayne Follett, son of Harrison A. Follett, Fairview, Utah; and Cpl. James W. Huskinson, son of Emor J. Huskinson, Osage, Wyo.

The missing crewman's name was withheld.

More than 70 Air Force, Navy and Marine planes and nearly a dozen U.S. Navy Japanese and Canadian ships were in the search for 2nd Lt. David Winton Bell, son of Charles H. Bell, president of General Mills Corp., and Capt. H. P. Montague Jr., Jackson, Miss., son of a chain store executive.

They are drifting on individual rafts, possibly 30 miles apart. One raft—believed to be Bell's—carries a weak radio. Its feeble signals have not been heard since early today, the Navy said.

McAneny is a son-in-law of Bradley C. Barnard, publisher of the Rome (N.Y.) Sentinel.

The three men rescued from the crashed helicopter were taken to a hospital at the big Navy base at Yokosuka.

In Tokyo, Bell's wife who arrived yesterday for a reunion with her husband, waited in seclusion. She expects a baby in September.

Navy officers said the men can probably hold out on the rafts for days unless they are injured or the weather turns bad.

Late yesterday the searchers said the man with the radio—presumably Bell—reported he had spotted a destroyer only three miles away. But it did not see him before fog closed in.

Monday, were held at 2 p. m. Wednesday at the Gillespie Funeral Home the Rev. Ralph E. Hurd, pastor of the Epworth Methodist Church, officiating.

Songs were "In The Garden" and "Beautiful Isle of Somewhere" sung by Mrs. Ernest Liebel and Miss Lydia Wagner with Miss Lillian Fox at the organ.

Palbearers were Paul Houston, F. M. Nicholas, R. R. Ramlow, Bryan Howe, Carl Walters and Berry Elliott.

Burial was in Memorial Park Cemetery.

Mrs. Eula May Bradley Services—Funeral services for Mrs. Eula May Bradley, who died Sunday, will be held at 2 p. m. Thursday at Burns' Chapel, Free Will Baptist Church, the Rev. J. Y. Jackson, pastor, to officiate.

Palbearers will be Thomas Moffitt, Albert Anderson, Clayton Wright, Felix Crobaiker, Lawrence Williams and Jesse Wise.

Burial will be in Crown Hill Annex.

The body, at the Alexander Funeral Home, will remain there until time for the services.

W. B. Williams—W. B. Williams, 317 East Johnson, died at 10:30 a. m. June 29 at his home after a long illness. He was well known, having been active in Republican politics many years. His wife died several years ago.

Surviving are a daughter, Mrs. Mary Lightfoot, Chicago, and son-in-law, Rudolph Lightfoot, of that city.

The body was taken to the Ferguson Funeral Home to await the completion of funeral arrangements.

Israel Cabinet Resigns Posts After Shakeup

JERUSALEM, Israeli Sector (AP)—Premier Moshe Sharett's Cabinet resigned today after the Premier's Mapai (Labor) party decided to end the four-party coalition government.

It was understood that the Mapai would try to form a new cabinet without the General Zionist party, the second largest faction in Parliament. The Mapai holds 47 of the 120 Knesset (Parliament) seats and the General Zionists have 20.

The Mapai held 9 of the 16 Cabinet jobs. A party spokesman said the decision to break up the coalition was taken after the General Zionists abstained from voting on a no-confidence motion in Parliament yesterday.

The dispute arose over the two no-confidence motions presented against the government for its conduct in the so-called Kastner case. One motion, introduced by the extreme right-wing Heruth party, was defeated yesterday 50-9 with 29 abstentions. A Communist motion on the same issue was defeated 60-7 with 17 abstentions.

The Kastner case involved an appeal by the Israeli attorney general against a judgment of the Jerusalem District Court June 22 which declared that Dr. Rudolf Kastner, former head of the Jewish Rescue Committee in Budapest, collaborated with the Nazis.

In its decision, the District Court dismissed libel charges brought by the attorney general against Malkiel Greenwald, who had published accusations against Kastner.

The extreme opposition parties in Parliament yesterday criticized the government for having initiated a state case and for what they called a "hasty appeal."

Dalton Decides Court Not Able To Reappraise

JEFFERSON CITY (AP)—Atty. Gen. John M. Dalton ruled today the Jasper County Court cannot hire a Chicago firm to make a scientific reappraisal of all property valuations in the county.

The question was raised by the County Court and by Cowgill Blair Jr., Jasper County prosecuting attorney, ... the wake of State Tax Commission orders to raise the county's assessed valuation 85 percent on urban properties and 60 percent on rural.

The County Court concluded all it could do to put the new scale into effect this year would be to order a blanket increase of valuations to meet the new levels. But it decided a scientific reappraisal should be made so more accurate figures would be ready for next year.

The court also asked whether it could raise its tax levy enough to pay for the reappraisal.

The attorney general said it wasn't necessary to answer the financial questions because the court could not legally hire non-residents to come in and make the reappraisal as deputy assessors.

Deputy assessors are public officers, the opinion said, and therefore must be residents of Missouri under the state's constitutional requirements.

Holdup on Schedule

PONTIAC, Mich. (AP)—The telephone rang at the sheriff's office late at night.

"In about half an hour," the caller said, "another fellow and I are going to hold up the Avon Inn out on Adams Road."

Deputies rushed to the scene and set up an ambush. A short time later two men walked into the lobby, drew guns and announced "This is a holdup."

When officers stepped out of hiding places, the gunmen meekly surrendered. One of the men admitted making the phone call but could give no reason why he did it. However, police said, both men had been drinking heavily.

The two were held on charges of armed robbery.

At Optimist Meeting—Pittsburgh-Corning Manager Explains Insulating Product

The new high temperature insulating material which will be manufactured in Sedalia will be 60 feet by 12 feet, which is the biggest in the world.

The main use of the new material is for pipe insulation and is an excellent low temperature material. It will be used to a great extent in furnaces and in plants where sudden fires break out around steel structure to prevent the bending of metal from the heat. This will be the first attempt at mass production of this material and while not as many men will be needed, those who are employed will be skilled and thus command high salaries. It will mean, the speaker said, quite a large payroll for Sedalia.

About a year ago, he said, the manufacture of glass blocks was stopped in Sedalia, in order to make the plant available for the new product. There will be about two key men from the east and the others will be men from the Sedalia area.

Foam glass will continue to be manufactured in Sedalia and the facilities will be expanded. One new unit, said Gilluly, will go into operation this month with the new type. There is a market for foam glass as fast as it can be manufactured.

There are two types of products in glass manufacturing the speaker pointed out. When glass blocks were developed the public had to be educated to use them. This new insulation material is different. It fills an already existing need. It is a rigid solid block that can be shaped like foam glass and saved.

Gilluly stated that Sedalia was first selected as a suitable location for the glass plant after three groups agreed on it. Some of the reasons were natural gas, a good place to live and as good a potential industrial site as the midwest could offer. The first group decided on Sedalia after surveys, the second group agreed and the third group, from the company felt the same way. So the plant was located here several years ago.

In telling one of the funny things that had happened, Gilluly said a few years ago while glass blocks were being manufactured a work man forgot to do something he was supposed to do in a change of pattern and the machine ran for eight hours that way with all the blocks coming out in different design. The company was ready to fire him the next morning but as they had all the block on hand, they sent some of them in. They were picked right up and the company had to start manufacturing more and continued to manufacture them for two years.

Gilluly, who has been in Sedalia only a week, said that he and his family were very happy here. They have found it the friendliest place they have ever been, he said.

The meeting was presided over by Dr. K. L. Holdren, president. Invocation was by the Rev. J. W. Watts. Charles Hanna led the singing with Miss Lillian Fox at the piano.

The filling station recently constructed by Oliver Renfrow is being operated by Jack Craig.

Mr. and Mrs. Walter Englebrecht and children, Kansas City, visited the past week with his parents Mr. and Mrs. Fred Englebrecht.

Mrs. Edward Knoop who has been visiting in the home of her son Mr. and Mrs. Russell Knoop, Independence, returned home Saturday.

Mr. and Mrs. Densil Howard and sons, Knob Noster visited Sunday in the home of her uncle Mr. and Mrs. T. N. Tinker.

Mr. and Mrs. Clay Williams and family, Sedalia, visited Sunday in the home of his parents Mr. and Mrs. T. D. Williams.

Mr. and Mrs. Paul Mowry and son Paul Jr., Sedalia, visited Sunday with her mother Mrs. Mary Marsh.

Mr. and Mrs. Clarence Riecke visited Sunday with relatives at Carrollton.

Mrs. George Brennecke and daughter Marie, East Chicago, Ind., visited Tuesday until Thursday with Misses Nan and Margaret Mahnken.

Carol Riecke left Friday for Des Moines, Ia., where he will visit in the home of his sister Mrs. Harry Rayburn and Mr. Rayburn. He will accompany Mr. and Mrs. Rayburn on a trip to Chicago, Canada and other points of interest.

Miss Ruth Pfaff visited Tuesday with her brother John Pfaff, a patient at the Warrensburg Clinic.

Mr. and Mrs. Floyd Tinker and family, Cole Camp, visited Sunday with their parents Mr. and Mrs. J. C. Griffith.

The Housewife's Hazards

Scarcely a day goes by that the modern housewife is not irritated beyond expression by her mate who thinks she has such an easy time of it; as comfortable as a bug in the rug in the safety of her home and avoiding the dangers her husband experiences daily going to and from work.

Sedalia housewives can tell you that life is not so dull and unexciting around the domicile as one might expect. Women are faced with countless chances of accidents, and are often caught unawares even with all the caution they ordinarily exercise in doing the kitchen and laundry tasks, and keeping the kids out of mischief.

As though there weren't enough accident potentials laying in wait for the unsuspecting housewife, another is beginning to get attention—an occupational hazard called skin diseases of the hands.

Commenting on this in "Health For All," the Missouri Tuberculosis Association in one of its recent releases reports that skin specialists say most of their patients suffering from dermatitis of the hands are homemakers, usually young wives who must cook, clean, wash dishes, do the laundry, raise children, and still look glamorous for their husbands. Their hands are almost constantly exposed to hazardous conditions, yet if skin trouble develops they can't take

their hands out of circulation long enough to cure them.

"Inflammatory skin disease is brought on by many things the housewife can't seem to avoid," the association points out. "There are injuries to the skin from friction, heat, cold, moisture, soaking, scratching. Irritation can come from soaps, detergents, polishes, cleansers, and even from nickel, rubber or plastic handles on utensils. Allergic reactions to certain foods and chemicals cause trouble as do infections in other parts of the body, nervous disorders, nutritional deficiencies, and just plain low resistance to infection."

What seems to be axiomatic in the housewives' predicament about risks in the home is that it is a lot easier to avoid serious accidents, or serious skin diseases, than to cure what happens after they occur.

Also it's easier to talk about organizing housework in order to avoid pitfalls than to practice organizational routine day in and day out.

However, should the housewife become an efficiency expert domestic routine might run so smoothly the little lady would face the further hazard of her husband suspecting that too much tranquility about the premises is proof his wife surely doesn't have much to do all day long when he is slaving at the office.

The housewife—she just can't win!

The World Today—

Task Force Report Dissects Allen Dulles

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP)—Allen W. Dulles, boss of the most hush-hush American spy agency against the Russians, has just been ripped in prose so velvet you have to look twice to see the wounds.

Dulles, brother of Secretary of State Dulles, is director of the Central Intelligence Agency. The prose was in a report by a six-man Hoover Commission task force, headed by retired Gen. Mark Clark, which investigated the U.S. intelligence setup.

While the FBI works against foreign spies in this country, CIA was set up in 1947 as this country's superspy outfit overseas, and particularly to find out what the Communists are doing behind the Iron Curtain.

Further, CIA is supposed to pull together all the intelligence information obtained by more than 20 government departments and agencies, evaluate it and see that the right government officials are told what they need to know.

Clark and his group said they are "deeply concerned over the lack of adequate intelligence from behind the Iron Curtain." Had it chosen to use blunt language, the Clark group might have said: "Our spy system isn't good enough."

The report gave Dulles credit for trying hard. "We found the director of the CIA to be industrious, objective, enthusiastic and imaginative."

That's not the same as saying he's doing a good job. The report says he tries to do too much himself and, by getting tangled up in day-by-day details, doesn't have enough time for a broad view of intelligence work.

There was a sharp contrast between the way the report said Dulles handles the CIA and the way J. Edgar Hoover runs the FBI. The report said of Hoover:

"We found the director of the FBI, through his forcefulness, initiative and managerial ability, to have developed his agency into a model organization of its kind."

The report suggested two things

to make Dulles' agency run better: (1) he should get himself a top assistant to take some of the everyday details off his hands and (2) the CIA needs an overhauling from the inside.

The Clark group also took a swipe at Secretary Dulles' State Department, which has the responsibility for collecting foreign publications and scientific intelligence. That job, the Clark group said, should be turned over entirely to CIA. And it complained that some

people in the State Department are "too conservative" about intelligence work in foreign countries. That attitude, the Clark group said, has worked "often to the detriment of vigorous and timely action in the field."

After getting a look at the whole picture, the report recommended creation of two "watchdog" commissions—one made up of members of Congress and the other of private citizens—to keep a steady check on what's being done.

Dr. Jordan Says—

Checkups Are Best Weapon In High Blood Pressure

By Edwin P. Jordan, M. D.

An interesting letter which is perhaps typical of the problem faced by many others comes from Mrs. E. and serves to introduce the subject of high blood pressure.

She writes "recently my husband tried to give some blood to a friend who had an operation and they refused to take it because his blood pressure was 190-110. He is 34 years old and apparently in good health, otherwise."

"He had trouble getting into the Navy ten years ago, but was finally taken. Is this anything to worry about, or is it natural for him when he has had high blood pressure most of his grown-up life?"

It will have to be admitted that a consistent blood pressure in a man of 34 of about 190-110 is too high. However, a single recording of such a figure does not mean much; one would want to know what the blood pressure levels were over a period of time and with several measurements, in order to draw any conclusions.

Worry is of no help whatever, and might even make his blood pressure go higher. He should, however, be under the care of a doctor who can watch the blood pressure and tell him whether or not anything should be done about it.

Something like 600,000 men and women become afflicted with high blood pressure in the United States alone every year.

Practically all of the different kinds of high blood pressure tend to increase in the later years of life.

It has been stated recently that every person over the age of 45 has a 50-50 chance of dying from high blood pressure, apoplexy, a heart attack, or some similar condition related to high blood pressure or arteriosclerosis.

What can be done about this situation? From early middle life onward a person should have an examination, including measurement of the blood pressure, taken at regular intervals so that the first signs of a rise in blood pressure can be recognized.

If found early some patients can be cured; in others the mere fact of an early diagnosis makes it possible for the physician to give advice which slows down the development of the symptoms and complications of high blood pressure.

What is still needed to conquer high blood pressure is research. This is now going on in many places.

One line of attack is directed toward diet. The rice diet which appears to be one form of low sodium diet, has received much attention, but it is hardly the final answer.

Another extremely interesting result of research is the demonstration in dogs that the brain can produce and empty into the bloodstream a hormone-like substance which acts to increase the blood pressure.

There are many other promising observations which have already been made from research efforts.

Churchmen Disagree on What Meaning of Religion Upswing

By Esther Van Wagoner Tufty
Democrat-Capital
Washington Correspondent

WASHINGTON — The trend toward religion in the United States is decidedly on the upswing. But churchmen can't agree on what it means. The optimists see evidence of an increased consecration to the Christian cause among Americans. Others are skeptical about why today 60 per cent of the population belongs to the country's 255 church bodies. They describe the country as "ready for" rather than already experiencing a spiritual reawakening. Evidence of new emphasis on religion are everywhere.

Here in Washington, many members of Congress quietly slip into a room recently provided in the Capitol for prayer and meditation. Cabinet meetings open with prayer.

The salute to the flag has been altered to include the words "under God" after "one nation". "In God We Trust" is to be engraved on the currency.

The United Nations opens with a minute of silent prayer. The new room for meditation is sought out by people from the 60 member nations representing many, many religions.

Evangelists, such as Billy Graham, are attracting huge crowds. Religion is mixed with patriotism in a cold war against "atheistic Communism."

People are giving more money to churches, some \$2.5 billion a year.

Building of new churches is at an all-time high.

Religious books are high on the best seller list.

In an interview with Dr. Benson Y. Landis, the head researcher for the National Council of Churches, he said it was impossible to tell why the increase in church-going, Reasons vary. Not all are deeply religious but tied into the "fear of atomic warfare, the movement to the suburbs, the increased birth rate, the shift of population resulting in people going to church mostly to make friends in a strange town."

Dr. Landis is hoping the U. S. Census Bureau will get the funds from Congress to take a religious census. The last one was made in 1906. Such a census, he said, "would be more complete and accurate and round out our knowledge of organized religion."

In answer to a question, he said, "The country isn't going Catholic or Protestant as the increases in both churches are about equal."

For the continental USA, the latest Yearbook of American Churches, reporting on 1953 membership, lists 31.5 million Catholics as compared to 55.8 million Protestants. Those of Jewish faith, with 5 million, are the next highest in membership.

Looking Backward...

TWENTY-FIVE YEARS AGO

Miss Geraldine Teufel, 414 East Fifth, left for Interlochen, Mich., to spend the summer as a member of the National High School Orchestra and Band. She was one of 11 in Missouri to receive a scholarship to the camp.

—1930—
Raymond P. Brandt, son of Mr. and Mrs. Jacob Brandt, 308 West Sixth, accompanied by Mrs. Brandt, returned to the United States after a six weeks' visit abroad.

—1930—
General rains over the state for three days improved crop prospects but muddled the streams. Fishing was slowed down as a result for a couple of days.

—1930—
W. H. Glasgow, Syracuse, sold his farm of 210 acres to C. F. Turner, to move to a residence he purchased at 1110 West Fourth.

—1930—
Kroencke's Concert Band arranged an engagement to play at Alma, Mo., July 4, in connection with a celebration there.

FORTY YEARS AGO

Harry D. Frueauff, general manager of the City Light and Traction Co., Mrs. Frueauff and their son, Harry, returned from a few weeks' visit along the Pacific coast in which they attended the Panama-Pacific exposition at San Francisco.

—1915—
M. M. McGuire, boilermaker-evangelist, formerly employed at the Sedalia Missouri Pacific Shops, was conducting a series of revival meetings at Houts' Chapel near Warrensburg.

—1915—
Dr. W. J. Ferguson and Dr. Guy Titsworth were at Warsaw attending a meeting of the Benton County Medical Society.

—1915—
Lee Redmond with the telegraph supply department of the Missouri Pacific, returned from Ft. Scott, Kan., where he had been on company business.

The Washington Merry-Go-Round—

Democrats Launch Military Graft Hunt

By Drew Pearson

WASHINGTON — Inside reason why V. M. Molotov at first wasn't going to hear Harry Truman speak in San Francisco was quite simple. Truman once gave Molotov the bawling-out of his life. Arriving in Washington enroute to San Francisco 10 years ago, Molo heard Missouri mule driver's language for 45 minutes. Chip Bohlen, now ambassador to Russia who served as interpreter, told Jimmie Byrnes later he had never heard a top official get such a scolding. . . . Truman's story of the bawling-out will be told in his book. . . . Retired brass hats at the Army-Navy club haven't relished the intrusion of Gary Cooper, who's playing the part of Gen. Billy Mitchell in a new Warner Brothers picture, "The Trial of Billy Mitchell." Part of the picture is being shot at the Army-Navy Club — after midnight, in order not to interfere with retired brass hats. Even so, some don't like it. Remarks Col. Bob Guggenheim, retired ambassador to Portugal: "It's the only quiet place a man has to go. He can't stay home." . . . The rumor that Ike was snubbing the one Democratic governor of New England, Ed Muskie, got started when Fred Scrivener, Republican national committeeman from Maine, grumbled about Eisenhower visiting a Democrat; also when the trip to Augusta was cancelled. Reason for the cancellation was too short runways for the Columbine to land, not because Ike didn't want to see Muskie. He saw him later at Snowhegan.

Boundary Claims Unsure

The real truth of the Alaska plane-shooting incident is that we don't know whether our plane was over alleged Siberian territory when forced down. The Russians claim sovereignty 20 miles out to sea, the USA claims three miles only. It's possible the patrol plane might have been over the Russian area. . . . Boundaries are difficult in this remote part of the world and in one part of the Bering Sea, Little Diomed island and Big Diomed island — one Russian, one American — are so close that Eskimos paddle back and forth with little worry about nationality. . . . The Russian claim of 20 miles sovereignty at sea is one reason the state department opposes Texas and Louisiana claims of 10 miles sovereignty over submerged oil off their coasts. The State Department argues that if the U. S. abandons the three-mile limit then we give Russia, Mexico and other nations a chance to cite Texas and Louisiana to justify their claims.

Military Graft Hunt

Senate Majority Leader Lyndon Johnson has gone on a fishing expedition for military scandals. His armed services preparedness subcommittee has written 27 letters to the defense department, demanding information. . . . The tall Texan will time his hearings just before the 1956 political season. . . . One scandal is

Guest Editorial—

PLEASANT HILL (Mo.) TIMES: ONE HOUSE LEGISLATURE. A Democratic-controlled Missouri legislature resembles nothing in this world so much as a Republican-controlled legislature. No matter which party gets the majority of our votes, we still send 191 legislators to Jefferson City to do a job that could be done better by 60.

We put them into a Rube Goldberg contrivance, ideally designed to produce exasperation rather than legislation. It has two houses, formally; a potent third one known as the lobby, and when it finally does pass a bill the essential work is done by a group of members called a conference committee.

By the time a piece of legislation has gone through two regular committees, two houses, one lobby and a conference committee it does not know its own papa and often has only the remotest resemblance to its original purposes.

We invite our contemporaries to help us holler for a small, one-house legislature, in which either the Republican or Democratic party might find it possible to write a record that would make its partisans proud.

the way our big bombers are bunched up like sitting ducks on a few bases. The Air Force has admitted that its giant B-36's and B-52's aren't properly dispersed, but the budget bureau won't approve the necessary funds. . . . Lyndon Johnson's investigators are also looking into an Air Force construction scandal in England. An alleged \$15,000,000 has been wasted putting up buildings that can't be used, because they are too small to accommodate the necessary equipment or were built without required utilities. In some cases, large buildings were constructed at the taxpayers' expense for no specific purpose. . . . The United States has been quietly pouring equipment into Quemoy, hottest spot in the Far East. It looks as if the administration is preparing to call the Red bluff over the disputed coastal islands. At least President Eisenhower doesn't intend to give up the islands in advance, though he is willing to turn them over to the Reds as part of a Far Eastern settlement.

Hell's Canyon Banter

Senator Millikin of Colorado has been bluntly told by the Democrats he'll get no Fryng Pan irrigation project, long coveted by drought-stricken Colorado, unless he votes for Hell's Canyon. . . . Senator Kuchel of California likewise has been warned the Trinity River project will get the ax unless he votes for Hell's Canyon. . . . Democrats, however, were extremely late in getting tough. They could have made a deal long ago for a GOP okay of Hell's Canyon in return for a Democratic okay of Echo Park dam on the upper Colorado. Big mistake was that they trusted their own leader, able Sen. Clint Anderson of New Mexico, who meant well but had his own ax to grind. He wanted the upper Colorado project so badly that he put it through first without making a deal with the Republicans. Today the Democrats have no bargaining power left over Senator Watkins of Utah who his Echo Park dam tucked in his breast pocket. But they still have with Millikin and Kuchel. . . . Unless Millikin can bring home the Fryng Pan project his re-election chances won't be worth much in Colorado. (Of course, he may not want to run again.) . . . In contrast to the Senate judiciary committee's makeshift probe of ex-Congressman John B. Wood for appointment to the subversive control board, Senator Anderson sent investigators all the way to Iowa to dig out the background of Allen Whitfield, appointed to the Atomic Energy Commission. No investigators were sent to Georgia to probe the background of John Wood, despite clear evidence that his office received a check for \$1,000 for introducing a private bill.

Record Bankruptcies

Despite prosperity, certain beneath-the-surface factors don't look good. One is the number of bankruptcies, now at the highest point in history. This is noted by a congressional report recommending more money to handle bankruptcy proceedings than ever before. . . . Genial Sen. Strom Thurmond of South Carolina has been wanting to get on the Senate Armed Services committee. But when he voted with Ike and against the Democrats to reduce the Marine Corps, Chairman Russell of Georgia cursed under his breath: "I'll never let him on the Armed Services Committee." Strom is president of the Reserve Officers Association. . . . Congressman Overton Brooks of Louisiana is getting so much Army-Navy-Air Force pull that he can spot air bases more or less where he wants 'em. When Gen. Curtis Le May objected to putting an air reserve training base at Barksdale Field, La., the gentleman from Louisiana had a talk with him, then announced the base would be at Barksdale. . . . Another excellent site, possibly better, was available at Kilgore, Texas, but Brooks is No. 2 Democrat on the Armed Services Committee. . . . It's a safe prediction that the Court of Appeals in Washington will see no more tie votes or close decisions on security risks. After the court tied on dismissing the Owen Lattimore indictments, Attorney General Brownell pushed his chief security-risk prosecutor, W. E. Burger, onto the court. Burger is the man who urged newsmen to whip up public sentiment against Dr. Peters shortly before that key security case went to the supreme court.

Delays Seen In Rearming Of Germans

BONN, West Germany (AP)—A new delay in putting the first West Germans into uniform was seen today as the lower house of Parliament sent a bill to call up the first volunteers to committees for re-writing.

Although still approving rearmament in principle, many of Chancellor Konrad Adenauer's own supporters complained that the measure contained no guarantees of civilian control over the military and could lead to a resurgence of German militarism.

The sharp blow to Adenauer's plans came last night after a heated debate in the Bundestag (lower house). Government sources said new proposals would be readied but there was considerable doubt that the legislators could prepare and pass another bill before the start of their scheduled summer recess July 18.

The Chancellor had wanted the enlistment of volunteers under way quickly to give the free world and the Russians additional evidence before the start of the Big Four summit talks next month that West Germany is determined to rebuild its armed strength.

Adenauer's request for temporary power to recruit a nucleus of volunteers pending passage of permanent army legislation came under sharp attack from representatives of all parties, including his own Christian Democrats.

The decision to return it to committee was taken on a show of hands, without a recorded vote. Despite a personal appeal by their 79-year-old leader, many of Adenauer's chief lieutenants deserted him in the debate. The government said full controls would be provided in the later, permanent legislation.

Sen. Humphreys Urges Release of Americans By Pressure on Reds

WASHINGTON (AP)—Sen. Humphrey (D-Minn.) said today President Eisenhower should urge Soviet Russia to "bring pressure" on Communist China for release of all Americans Peiping holds.

Should that fail, he said in an interview, the United States should be prepared to take the matter up directly with Red China.

He said the United States should press Russian leaders at the July 18 Big Four summit conference to use their influence toward freeing 11 U.S. airmen held in Communist jails and a number of civilians detained in China.

Without mentioning the prisoner issue, Secretary of State Dulles told a news conference yesterday he does not rule out the possibility of direct talks with Red China on some matters.

Sen. Mansfield (D-Mont.) chided Dulles for not saying that release of the airmen should be a condition for any talks with Peiping, as Senate Minority Leader Knowland (R-Calif.) has insisted.

Pioneer Scientist Says Passports Easy

WASHINGTON (AP)—Pioneer atomic scientist Leo Szilard of the University of Chicago was explaining that he never had any real trouble with the government when he wanted a passport.

There was one time shortly after the war, he said in a letter to the Evening Star published yesterday, when a passport didn't arrive until a day or two before his scheduled departure.

But such delays were routine with atomic scientists in those days, he said.

"I imagine the government wanted to count the number of secrets each man carried in his head so that upon his return they could check if any were missing."

PUTTING A STOP TO THINGS—Three remote-controlled traps are braking emergency jet landings at Republic Aviation Corp. runways at Farmingdale, N.Y. A push of a button from the control tower lifts a nylon mesh strip from the runway which catches the speeding plane's nosewheel and causes a steel cable to catch the plane's main landing wheels. Cable is attached to 36 tons of anchor chain whose sheer drag stops a plane speeding 150 m.p.h. in 600 feet.

Business Boom Continues To Astound Experts of Nation

Editor's Note — The business rolled on to new heights the first six months of 1955. In the following article, first of two, Sam Dawson, AP business news analyst, reviews the first half of the year and tells what developments brought about an historic high in prosperity.

By SAM DAWSON

NEW YORK (AP)—This is the year good times flabbergasted the cautious. The economy has hit its peacetime stride. Records topple as business becomes "almost too good to be true."

At midyear businessmen are revising their predictions—on the upside, just as they were a year ago. Then, the recession was proving to be much shallower than many had feared earlier. Now, the recovery is proving to be much more vigorous than most had dared to hope. Only the fear of crippling strikes or of future inflation clouds the prospects.

Last year the stock market outpaced business. This year industry forges ahead faster than stock prices. Securities have advanced since the first of the year, but often hesitantly, and with over-all gains only about half as steep as last year.

This has been a "big ticket" year, with the consumer unquestionably in control. He has been buying, and going into debt to buy, the hard wares of peace—autos in record numbers, TV sets, freezers, automatic washers. He continues to buy new homes and their furnishings at an astounding rate.

So the makers of durable goods and suppliers of the materials have been having a field day.

Consumer buying has sent the gross national product—the dollar volume of all the goods and services the nation produces and sells—to an all time high of 370 billion dollars.

In the previous peak—365 billions in 1953—it was government spending for defense that furnished the spark.

And now, at midyear, business itself is about to goad the economy to a still faster pace with its plans for spending more for new plant and equipment.

Industrial output hit an all time high in May. Rebuilding of inventories is looked upon as a likely bolstering influence for a while.

Large numbers of the public have more income. Wages have risen more this year than last. Factory hours have lengthened. More persons are on payrolls. Federal taxes are a little lighter. Dividend payments are higher.

And the public has responded in three ways: buying more goods and choosing more expensive items; pledging more of expectable future income in mortgages and installment debt, and saving a smaller percentage of income.

During the six months the cost of living has stayed remarkably stable. The cost of some industrial materials, notably metals, has risen. Most foods have eased in price, if anything. Rent and clothing have changed little.

Total debt continues to rise. Washington frets about what would happen to installment and mortgage payments if incomes should drop. Stock margins are hiked to bring trading nearer to a cash basis—as a warning against runaway speculation.

Senators look at the stock market and give it a case of nerves. But corporate profits, rising steadily and impressively this year, and more generous dividend payments offset the jolts to confidence.

The auto industry's pledge to add something to what states pay out to laid off workers renews talk of inflation. But its greatest immediate effect was to lay the

Springfield Shoppers Die In Explosion, Fire While Seeking Refuge

SPRINGFIELD, Mo. (AP)—A fireworks display in a retail store blew up yesterday, causing the deaths of three shoppers.

The exploding firecrackers and skyrocketed scattered the flames through the one-story structure. The building was destroyed.

The three shoppers perished in a restroom where they had fled to escape the flames. They were Mrs. Margaret Click, 56, and two sisters, Mary Williams, 11, and Linda Kay Williams, 7.

It was not known what touched off the fireworks. An employee of the store was overcome by smoke but 14 other employees and three customers escaped injury.

Mayor Warren Turner called a special meeting of the City Council today to consider a resolution to ban sale of fireworks in the city.

Clarence Wheeler, co-owner of the store, estimated damage at \$275,000.

Multiple Collision On Bridge Hurts One

EAST ST. LOUIS, Ill. (AP)—A collision on a Mississippi River bridge approach yesterday involved two buses, a truck and a locomotive—but only one person was slightly hurt.

Police said it happened this way: A truck stalled on the approach which has railroad tracks in the center. Two buses then collided, one hitting the truck and the other going through a guard rail and partly into the track area. A diesel engine hit the protruding bus and hurled it back into the other bus.

fears of costly strikes—in that one industry at least.

Mainly it's a year of prosperity. Tomorrow: What lies ahead?

Air Force Boasts New, Advanced Aerial Strength

WASHINGTON (AP)—The Air Force says it has in the B52 the best bomber "in the world today," has fighters ready to move anywhere on the globe and is making advances in developing continent-to-continent missiles.

The outline of air strength was contained in the Defense Department semiannual report released yesterday. It appeared coincidentally with a demand from a Democratic senator to Secretary of Defense Wilson to answer a dozen questions dealing with the quality and quantity of Russian planes and missiles.

The brief air section of the report, covering a six-month period ending last Dec. 31, was written by Secretary Harold Talbott. He said the program to build to a 137-wing Air Force (from a present strength of 121 wings) has not been changed, although "it must constantly be reevaluated in the light of growing Communist capabilities."

Talbott said the appearance soon of the Boeing eight-jet B52 in the air fleet "should be of great reassurance to our people."

He said the North American supersonic-speed jet fighter F100 "is already here and the first squadron has been activated and equipped." The research and development, he said, "is turning out newer and better fighters and missiles at a steady rate."

Rancher Goes Berserk, Killing Self, Family

CORA, Wyo. (AP)—A prosperous rancher went berserk and shot and killed his wife, daughter and parents-in-law four days before their bodies were found at their home north of here, Sublette County officers said today.

Coroner Francis Tanner, summoned by a forest ranger who made the grim discovery, termed the slayings "murder-suicide—it couldn't have been anything else." The victims, their bodies pierced by bullets from a heavy 30.06 rifle, were Lawrence (Jack) Alexander, 45; his wife Patricia, 40; their daughter Grace, 6; and Mrs. Alexander's parents, Mr. and Mrs. F. X. O'Brien of Miami, Fla., visiting here.

Burmese Minister Confers With Ike And Dulles Today

WASHINGTON (AP)—Prime Minister U Nu of Burma arrives today to discuss Far East tensions with President Eisenhower and Secretary of State Dulles.

The scholarly Prime Minister, who has offered to help bridge the gulf between Communist China and the United States, arranged to meet with Dulles and Eisenhower shortly after his arrival by air from New York.

He will remain in Washington until Sunday.

Dulles pointedly opened the way for any proposals U Nu may have by saying at his news conference yesterday he looked forward to the Asian leader's visit. He said he expected to discuss problems dealing with relaxation of tensions in the Far East.

The 48-year-old Prime Minister, an active neutralist closely aligned with Prime Minister Nehru of India, visited Peiping last December. He declared afterwards that he might have some contribution to make in settling differences between the United States and Red China.

However, he is not expected to propose a specific formula nor to seek the role of mediator between the two countries.

Janitor Donates Gift When Retiring Duties

DETROIT (AP)—Mike Barkay contributed fifty \$1 bills to Lawrence Tech's campus development fund yesterday. Mike, at 69, is ready to retire as head janitor at the college. He said he wanted to make a "going-away" present rather than receive one.

Krishna Menon Sees Change In Attitude At Last UN Meeting

WHITTIER, Calif. (AP)—V. K. Krishna Menon, chief foreign policy adviser to Indian Prime Minister Nehru, says that the U.N. anniversary meeting at San Francisco "represents a change in attitudes of world leaders."

He told the opening of the 21st annual Institute of International Relations at Whittier College last night that "circumstances are such that a reorientation of thinking is necessary."

Menon termed the San Francisco session "a good sendoff" for the four-power conference in Geneva in July.

"We cannot establish peace by methods of war," he said. "We must think in terms of peace."

India, he said, is often called neutral. "India is not neutral to peace," he said. "India is not neutral to using methods of negotiation."

"We should be willing and wise to take the risks for peace as we take the risks of war. The cause of peace through conciliation calls for courage, perseverance, patience and magnanimity."

To Die for Slaying Airman Over a Girl

WACO, Tex. (AP)—A Negro soldier chewed gum without a flicker of expression as a jury ruled before dawn today he must die in the electric chair for the "lover's lane" pistol slaying of an airman.

The all-white, all-male jury convicted M. Sgt. Marion Washington, of Ft. Hood, of murder in the death of A. I. C. Henry Poole, 21, of Spartanburg, S.C. Poole was shot the night of April 2 while reportedly defending his fiancée from a stranger who loomed out of the shadows and vowed to rape her. Poole and the girl were parked on a lonely road.

Chiefs Upset Boonville To Decide BJ League Winners

Local Club Takes Fourth Straight In League Play

The Sedalia Chiefs decided the first half winners of the Central Missouri Ban Johnson League Tuesday night as they took a 5-3 victory over the Boonville Cadillacs at Liberty Park.

The Boonville club, second place in the league, was put out of the first place race by the defeat and Jefferson City, who has led all the way was assured of the first half pennant.

The win was the fourth straight for the Chiefs, who have started up the comeback trail the past two weeks.

The Cadillacs jumped off to a one-run lead in the first inning when Wing singled in a run for his first of five straight hits. The Chiefs tied it up in the second on a single by Gilbert and a long double down the left field line by Mines.

The local boys went ahead to stay in the third when Case hit his first of two triples and scored on a sacrifice fly by Higgins. Another Chief tally came in the fourth when Fall doubled to left field and scored on a single by Mines.

Two local runs came across the plate in the fifth on a triple by Case and a double by Barbour.

Kubli ran into trouble in the third and Burton was brought in with three on and only one out. The first batter he faced grounded into a fast double play and the Chiefs left the inning safely.

Burton had men on base every inning after that, but until the ninth was able to work himself out of trouble without any scoring.

Then in the ninth frame he retired the first two men and quickly Boonville got two hits, when a fly ball dropped to score a run.

The next man walked and once again the bases were loaded. Arnold was brought in to replace Burton and the first man he faced got a grounder past the third baseman for the second tally of the inning. Arnold then took charge of the situation by fanning out the next batter on three straight pitches.

The Chiefs will close the first half of the season at Boonville Thursday night as they once more meet the Cadillacs, this time on their home field.

Plans are under way to bring a strong semi-pro team to Sedalia to meet the Chiefs Sunday, which is an open date in the local club's schedule.

A large crowd turned out for the Boonville game and most of the comments on the team were very enthusiastic. The Chiefs have improved their game greatly, having a record of five wins and six losses after having lost six of the first seven games.

The public is urged to attend the games and give the local boys their support as they start into the second half of league play.

Finigan And Musial Are On All-Star Poll

CHICAGO (AP) — Three major changes were recorded today in the All Star baseball poll which ends midnight Friday in determining the starting lineups for the game at Milwaukee, July 12.

Duke Snider of Brooklyn took the lead among centerfielders in the National League and Stan Musial of St. Louis overtook Ted Kihzowski of Cincinnati in the race for first base.

In the American League, Jim Finigan of Kansas City jumped ahead of third baseman George Kell of the Chicago White Sox.

Week In The Water

Attendance at the Liberty Park swimming pool has been below normal this season due to the unusual chilly weather, which has prevailed over this area. Some warm afternoons lately, however, have boosted the number of swimmers and plans for the summer in the water have been going according to plan.

At the present time the Red Cross is sponsoring a series of swimming classes which are being carried on at both Hubbard and Liberty parks. There is no age limit on the classes and numerous persons of varied ages have been attending the classes for beginners through intermediate swimmers.

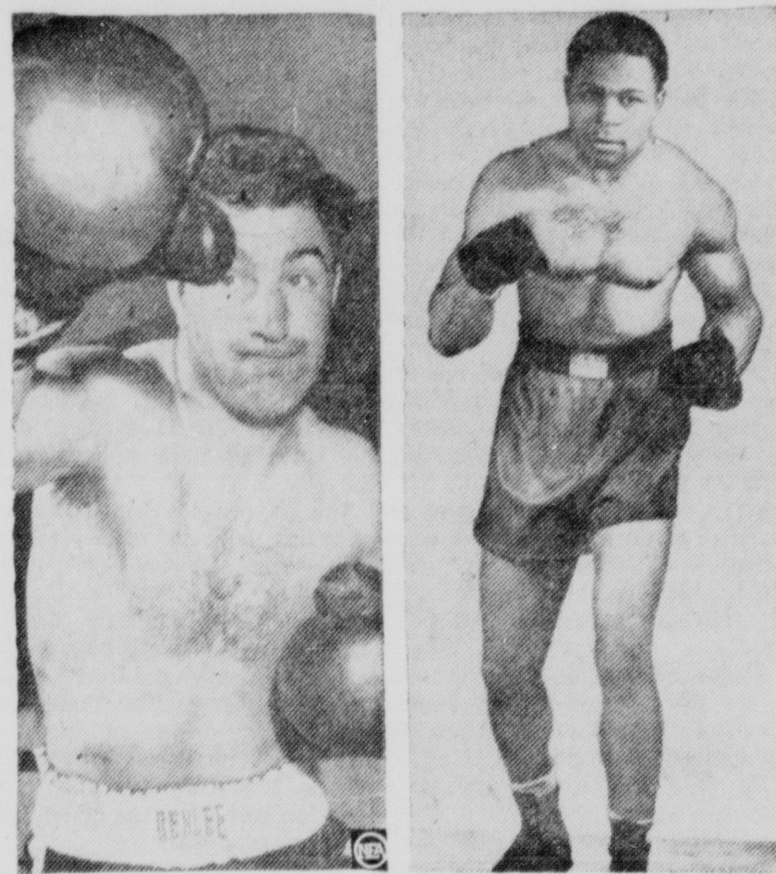

A swim meet is planned for the Liberty Park swimming pool after the Red Cross classes have been finished. The program, which is not completed, will have such races, of various strokes, and diving featured.

A number of out-of-town people have been using the local pools. Liberty Park has reported that several 4-H clubs have been brought to Sedalia by bus and that groups from 12 to 20 persons have held their swimming parties at the pool.

In a freak accident last Friday at the Liberty Park pool Johnny Ray Fluty, Houstonia, was slightly injured when the life guard, Bill Sutton, fell on him from the life guard perch at the side of the pool. Sutton had grabbed at an umbrella which had blown off the perch, when he lost his balance and fell on Fluty, who was swimming below him.

Gerhardt Jaeger, who is handling the management of the Liberty Park pool this season announced that the water was in wonderful condition and that the new diving boards were proving very successful.

Hubbard Park has reported that a number of out-of-town people had been frequenting the local pool and that regular delegations from Warrensburg and Marshall

Site To Be Chosen--

Heavyweight Title Bout Plans Near Completion

NEW YORK (AP)—A half dozen cities still are in the running for the proposed heavyweight championship fight between Rocky Marciano and Archie Moore—but the two haven't even signed for the battle yet.

"We expect to get an agreement for the fight by Friday or maybe even tomorrow," said Harry Markson, managing director of the International Boxing Club.

The word is out that Marciano will defend his title Sept. 22 in Yankee Stadium here.

"Of course we expect to sign the two for a September bout," said Markson in a shocked tone. "But as to the site and date, there's a lot that has to be settled."

New York, Chicago, New Orleans, Houston, Los Angeles and Milwaukee, among cities, are in the running, said Markson. He said he preferred New York himself.

Charley Johnston, manager of Moore, said he favors New York.

Anderson's Heating 1 6

had been making the trip here by bus.

A big water show has been planned for Hubbard Park swimming pool on July 4. The show will include stunts, competitive racing and diving for which prizes will be given. Many other sports attractions will be featured through out the day and will be reported in the Sunday edition.

Sweet Springs Stock Races Held Tuesday

Seventeen cars were entered in the Sweet Springs Modified Stock Car Races Tuesday night with George Aleshire, Moberly, taking the qualifying round in 20.6 seconds.

Joe Dennis, who was injured in the Warrensburg races Saturday, was back in action after having been released by doctors during the week.

The trophy dash was taken by George Aleshire, who was never challenged after he took the lead. The time for the dash was 1 minute, 44 seconds.

In the slow heat George Deer of Sweet Springs and Roy Hibbard, Marshall, got in one of their usual battles for the first spot with Deer taking the advantage this time and Hibbard running second. Chet Duly took third.

During the second heat both Harold Cromley and Tubby Mast were forced to leave the race due to car difficulties and Joe Dennis was left for first place as Ken Taylor gave him a good run for second. Pistol Gun took third.

The third heat was made up of non money winners in the two previous races with Gene Johnson, a former Sweet Springs racer now stationed at Atlanta, Ga., with the Army, back in the race giving Dean Meyer of Jefferson City a fast run for first place. Dean Meyer took first while Russel Hibbard sneaked in for second, leaving Johnson third.

In the feature race 13 cars were entered with Pistol Gun taking first, Tubby Mast, second, and Joe Dennis, third.

During the consolation race George Snorgrass, Kansas City, who was running alone at the time, rolled over four times before stopping, but was uninjured. The race was taken by Ken Taylor with George Deer, second, and

Roy Hibbard, third.

No races will be held in the Central Missouri Racing Association on July 4, but the regular race will be held at Sweet Springs the following Tuesday.

Columbia Ladies Take Inter-City Tourney Tuesday

The Columbia ladies' Inter-City golf team captured the team trophy for the first year of play in ladies' Inter-City matches when the season's last meet was played at the Sedalia Country Club Tuesday.

Columbia will have to win the trophy two more times for permanent possession.

Columbia and Jefferson City were neck and neck at the end of Tuesday's first nine holes of play with only three and one-half points separating the two teams.

Columbia maintained their lead through the second round and easily won the match.

The totals in points at the end of the season's four matches: Columbia, 1184; Jefferson City, 994½; Sedalia, 758; and Fulton 519½.

Point totals for Monday's match are: Columbia, 272; Jefferson City, 253½; Sedalia, 219½; and Fulton, 119½.

Sedalia's women golfers maintained third place throughout the four meets. Mrs. Lloyd Parker was medalist for Sedalia Monday with a 50-48-98. Mrs. Kathy Timlin collected the most points for the local ladies with 35.

Brooklyn (AP)—Roy Campanella, who last season fell down as the big gun of the Brooklyn Dodgers because of a broken bone in his left hand, was scheduled for x-rays today to determine whether he has a fracture in his left knee.

The burly Dodger catcher said he was struck by a foul tip during a series at St. Louis 10 days ago, and that the knee has given him trouble since.

Scott Higgins to Judge Rushville Horse Show

Scott Higgins, La Monte, will leave Thursday for Rushville, Ill., where he will judge the Schuyler County Fair Horse Show July 1 through 4.

The Schuyler County Fair Horse Show, a four-day affair, is one of the largest horse shows in the north central Illinois area. Mr. Higgins will judge the entire show, including both five-gaited and three-gaited classes, fine harness, roadsters, parade and walking horse classes.

Over \$5,000 in cash prizes and trophies will be awarded during the four-day show.

Leslie Redshaw, Rushville, is superintendent of the fair and H. V. Loring, Peoria, is horse show manager. Mr. Loring stated early this week that more than 400 horses had been entered in the show.

Jaycees and The Nat'l Engineers Win Industrials

In the first game of the Industrial League Tuesday night the Jaycees were pitched to a shut-out over the Kilowatts by Bill Lyles, 3-0.

Lyles scattered three hits through the game, while Roberts, the loser, gave up seven.

Bud Thomas had three hits for the winners and Don (Yogi) Weller had a double and a single for batting honors. Selsor had two hits for the losers.

In the second game Parkhurst outdid Elwell in pitching chores as he led the National Engineers to a 6-3 victory over the Hudson Hornets.

In scoring the six runs the Engineers took 12 hits off Elwell while the Hornets took seven from Parkhurst for three runs.

Each team tallied a homer with Don Streeter taking the honors for the winners and Tucker for the losers.

Viebrock, B. Streeter and McKeehan all had two hits each.

Wednesday night the Jolly Welders will take the field against the Moose Club at 7:30 p.m., while the Hamm's Beer club faces the Meadow Gold aggregation at 9 p.m.

Old Favorites Return to TV This Summer

By WAYNE OLIVER
NEW YORK — It's old home week in television.

Summer replacement schedules are bringing back people and programs missing from the air for weeks and, in some cases, months. Last night, for example, there was the old reliable combination of Bill Cullen and Place the Face on NBC. And Monday night it was Julius La Rosa, seen mostly on a guest basis since his firing by Arthur Godfrey late in 1953, starting as a regular on CBS' early evening musical show.

The perennial Arthur Murray Party came back on NBC last night to add to the air of nostalgia. There are more to come. The half-hour dramatic show entitled Cameo, introduced in 1950 and acclaimed by critics for its innovations and excellence, returns to NBC Sunday night for an eight-week season.

One of the real pioneer programs of TV, Mike Stokely's Pantomime Quiz, returns to CBS July 8 as summer replacement for Mama. Saturday night was a preview of things to come. There was the ample and familiar figure of Paul Whiteman as emcee on Greatest Bands of America, Jackie Gleason's CBS summer replacement. And on NBC, Dunninger began a new program featuring his mystifying mental feats of the type he did for TV audiences several seasons ago.

Desi Arnaz Is Partner In New Film

By BOB THOMAS
HOLLYWOOD — Only a few years ago, Desi Arnaz was a featured player at MGM, acting small roles in films.

Today he is a full-fledged partner with MGM as the producer of a movie, "Forever, Darling," starring himself and his talented wife Lucille Ball.

Desi and Lucy are shooting not on the MGM lot, but at Motion Picture Center. That's where they film their TV show I Love Lucy. Incidentally, they own the studio. Lucille was playing hostess on the set, introducing fellow cast members James Mason and Louis Calhern. They play her guardian angel and father, respectively, in the film.

How does she like the switch from the TV grind to a feature film?

"It's much the same, except that I don't have a headache," she replied. "On the day of the TV show, I always have a pain right here (pointing to her left temple). It's because of all those words I have to remember."

"There's much less pressure making a film. I have time to sit down and read the paper. I can never do that when we're on the TV kick. I just don't feel that I can spare the time."

But she said she'll get a vacation after "Forever, Darling"—five weeks at Del Mar.

About future plans for I Love Lucy, she was pretty vague. "I just work here," she said. "Ask the boss."

The boss is Desi, no doubt about it. And he had the answers too.

Lucy will resume in September, he reported, but they will have to make only 26 next season, compared to the usual 39. Reruns of old films will take up the slack.

What comes after next year? Will the series end, as has been reported?

"I don't know what we'll do," Desi answered. "The sponsors want us to make more, but that may be enough. At any rate, we'll have to make another picture for MGM next summer."

Thug Hits Wrong Man In Middle of Night

BOWLING GREEN, Ky. — Sim Edmons, about 50, climbed out of bed last night to answer a knock at the door and was promptly slugged on the head with a rock.

The assailant then took a closer look at Edmons and the house and offered an immediate apology.

"I not only got the wrong man, I even got the wrong house," he said.

He offered to take his victim to the hospital but Edmons declined. He returned to bed, refusing to identify the man or obtain a warrant against him.

Blind Child Suffers Third Major Accident

HUNTINGTON, W. Va. — Rennie Elizabeth Patrick, totally blind since she was 9, suffered the third major accident of her young life yesterday.

Rennie, who lives in Sheridan, was in serious condition in a Huntington hospital after the front wheel of a bicycle was on collapsed and a handle bar was driven into her abdomen.

A friend, Janice Cremons, 15, also of Sheridan, was giving Rennie a ride on the bicycle. Janice was treated at the hospital and released.

Rennie was born with normal vision. She lost the sight of one eye when she was small, falling on a pair of scissors. She lost the sight of her other eye at the age of 9 when she ran into a clothes line.

Return More Money Than They Had Taken

GREENFIELD, Ohio — When A. B. Collins, owner of a food market here, went to work at his store yesterday he discovered a stolen money bag containing \$15.95 and a note at the front door. The bag, containing \$25, had been taken Sunday night.

The note said the bag contained \$17.33—a discrepancy no one could figure out—and promised to return the remainder later.

"We are sorry," it added. The note was signed "A. L. and L. C."

Sleeps Happily Under Bulldozer Dirt Pile

CHARLESTON, W. Va. — Being buried alive was all in a night's sleep for Bill Tinsley, a 55-year-old "repeater" in City Police Court.

At least, that's what the Charleston resident told police yesterday when he was pulled from beneath a dump heap on the bank of Elk River.

A bulldozer operator could hardly believe his eyes when he saw a pair of feet protruding from a pile of dirt and debris shoved to one side. His call brought two patrolmen, who began digging frantically in the dirt.

Tinsley was found near the bottom, loudly protesting the sudden interruption in his sleep. He will be arraigned today on a drunk charge.

Chiefs Upset Boonville To Decide BJ League Winners

Local Club Takes Fourth Straight In League Play

The Sedalia Chiefs decided the first half winners of the Central Missouri Ban Johnson League Tuesday night as they took a 5-3 victory over the Boonville Cadillacs at Liberty Park.

The Boonville club, second place in the league, was put out of the first place race by the defeat and Jefferson City, who has led all the way was assured of the first half pennant.

The win was the fourth straight for the Chiefs, who have started up the comeback trail the past two weeks.

The Cadillacs jumped off to a one-run lead in the first inning when Wing singled in a run for his first of five straight hits. The Chiefs tied it up in the second on a single by Gilbert and a long double down the left field line by Mines.

The local boys went ahead to stay in the third when Case hit his first of two triples and scored on a sacrifice fly by Higgins. Another Chief tally came in the fourth when Fall doubled to left field and scored on a single by Mines.

Two local runs came across the plate in the fifth on a triple by Case and a double by Barbour.

Kubli ran into trouble in the third and Burton was brought in with three on and only one out. The first batter he faced grounded into a fast double play and the Chiefs left the inning safely.

Burton had men on base every inning after that, but until the ninth was able to work himself out of trouble without any scoring.

Then in the ninth frame he retired the first two men and quickly Boonville got two hits, when a fly ball dropped to score a run. The next man walked and once again the bases were loaded. Arnold was brought in to replace Burton and the first man he faced got a grounder past the third baseman for the second tally of the inning. Arnold then took charge of the situation by fanning out the next batter on three straight pitches.

The Chiefs will close the first half of the season at Boonville Thursday night as they once more meet the Cadillacs, this time on their home field.

Plans are under way to bring a strong semi-pro team to Sedalia to meet the Chiefs Sunday, which is an open date in the local club's schedule.

A large crowd turned out for the Boonville game and most of the comments on the team were very enthusiastic. The Chiefs have improved their game greatly, having a record of five wins and six losses after having lost six of the first seven games.

The public is urged to attend the games and give the local boys their support as they start into the second half of league play.

Finigan And Musial Are On All-Star Poll

CHICAGO (AP)—Three major changes were recorded today in the All Star baseball poll which ends midnight Friday in determining the starting lineups for the game at Milwaukee, July 12.

Duke Snider of Brooklyn took the lead among centerfielders in the National League and Stan Musial of St. Louis overtook Ted Kinszowski of Cincinnati in the race for first base.

In the American League, Jim Finigan of Kansas City jumped ahead of third baseman George Kell of the Chicago White Sox.

Week In The Water

Attendance at the Liberty Park swimming pool has been below normal this season due to the unusual chilly weather, which has prevailed over this area. Some warm afternoons lately, however, have boosted the number of swimmers and plans for the summer in the water have been going according to plan.

At the present time the Red Cross is sponsoring a series of swimming classes which are being carried on at both Hubbard and Liberty parks. There is no age limit on the classes and numerous persons of varied ages have been attending the classes for beginners through intermediate swimmers.

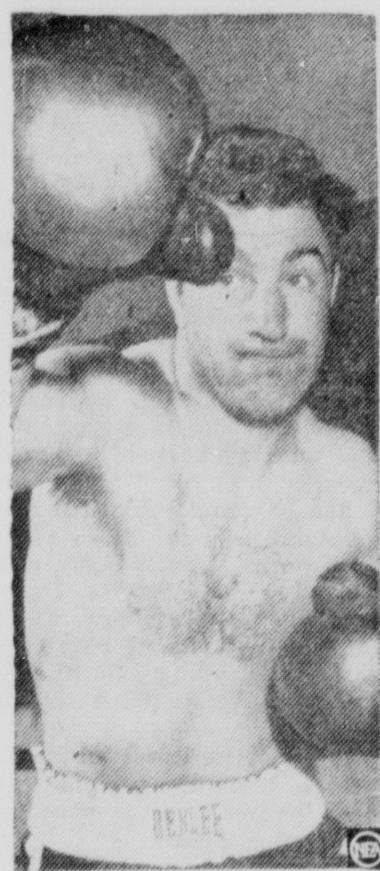

A swim meet is planned for the Liberty Park swimming pool after the Red Cross classes have been finished. The program, which is not completed, will have such races, of various strokes, and diving featured.

A number of out-of-town people have been using the local pools. Liberty Park has reported that several 4-H clubs have been brought to Sedalia by bus and that groups from 12 to 20 persons have held their swimming parties at the pool.

In a freak accident last Friday at the Liberty Park pool Johnny Ray Fluty, Houstonia, was slightly injured when the life guard, Bill Sutton, fell on him from the life guard perch at the side of the pool. Sutton had grabbed at an umbrella which had blown off the perch, when he lost his balance and fell on Fluty, who was swimming below him.

Gerhardt Jaeger, who is handling the management of the Liberty Park pool this season announced that the water was in wonderful condition and that the new diving boards were proving very successful.

Hubbard Park has reported that a number of out-of-town people had been frequenting the local pool and that regular delegations from Warrensburg and Marshall

Site To Be Chosen--

Heavyweight Title Bout Plans Near Completion

NEW YORK (AP)—A half dozen cities still are in the running for the proposed heavyweight championship fight between Rocky Marciano and Archie Moore—but the two haven't even signed for the battle yet.

"We expect to get an agreement for the fight by Friday or maybe even tomorrow," said Harry Markson, managing director of the International Boxing Club.

The word is out that Marciano will defend his title Sept. 22 in Yankee Stadium here.

"Of course we expect to sign the two for a September bout," said Markson in a shocked tone. "But as to the site and date, there's a lot that has to be settled."

New York, Chicago, New Orleans, Houston, Los Angeles and Milwaukee, among cities, are in the running, said Markson. He said he preferred New York himself.

Charley Johnston, manager of Moore, said he favors New York.

Babe Ruth Games For Tonight And Ratings

The first game of the Babe Ruth League tonight will be Phillips 66 vs. Mullins Men's Wear at 6:30 p.m.

The second game will be Anderson's Heating against Brown's Supply at 8:15 p.m.

The team standings at present are:

	W	L
Brown's Supply	6	1
Taystee Bread	5	2
Western Auto	4	3
Phillips 66	3	3
Mullins Men's Wear	1	5
Anderson's Heating	1	6

had been making the trip here by bus.

A big water show has been planned for Hubbard Park swimming pool on July 4. The show will include stunts, competitive racing and diving for which prizes will be given. Many other sports attractions will be featured through out the day and will be reported in the Sunday edition.

Sweet Springs Stock Races Held Tuesday

Seventeen cars were entered in the Sweet Springs Modified Stock Car Races Tuesday night with George Aleshire, Moberly, taking the qualifying round in 20.6 seconds.

Joe Dennis, who was injured in the Warrensburg races Saturday, was back in action after having been released by doctors during the week.

The trophy dash was taken by George Aleshire, who was never challenged after he took the lead. The time for the dash was 1 minute, 44 seconds.

In the slow heat George Deer of Sweet Springs and Roy Hibbard, Marshall, got in one of their usual battles for the first spot with Deer taking the advantage this time and Hibbard running second. Chet Duly took third.

During the second heat both Harold Cromley and Tubby Mast were forced to leave the race due to car difficulties and Joe Dennis was left for first place as Ken Taylor gave him a good run for second. Pistol Gun took third.

The third heat was made up of non money winners in the two previous races with Gene Johnson, a former Sweet Springs racer now stationed at Atlanta, Ga., with the Army, back in the race giving Dean Meyer of Jefferson City a fast run for first place. Dean Meyer took first while Russel Hibbard sneaked in for second, leaving Johnson third.

In the feature race 13 cars were entered with Pistol Gun taking first, Tubby Mast, second, and Joe Dennis, third.

During the consolation race George Snorgrass, Kansas City, who was running alone at the time, rolled over four times before stopping, but was uninjured. The race was taken by Ken Taylor with George Deer, second, and

Columbia Ladies Take Inter-City Tourney Tuesday

The Columbia ladies' Inter-City golf team captured the team trophy for the first year of play in ladies' Inter-City matches when the season's last meet was played at the Sedalia Country Club Tuesday. Columbia will have to win the trophy two more times for permanent possession.

Columbia and Jefferson City were neck and neck at the end of Tuesday's first nine holes of play with only three and one-half points separating the two teams. Columbia maintained their lead through the second round and easily won the match.

The totals in points at the end of the season's four matches: Columbia, 1184; Jefferson City, 994½; Sedalia, 758; and Fulton 619½.

Point totals for Monday's match are: Columbia, 272; Jefferson City, 253½; Sedalia, 219½; and Fulton, 119½.

Sedalia's women golfers maintained third place throughout the four meets. Mrs. Lloyd Parker was medalist for Sedalia Monday with a 50-48-98. Mrs. Kathy Timlin collected the most points for the local ladies with 35.

Roy Hibbard, third.

No races will be held in the Central Missouri Racing Association on July 4, but the regular race will be held at Sweet Springs the following Tuesday.

Scott Higgins to Judge Rushville Horse Show

Scott Higgins, La Monte, will leave Thursday for Rushville, Ill., where he will judge the Schuyler County Fair Horse Show July 1 through 4.

The Schuyler County Fair Horse Show, a four-day affair, is one of the largest horse shows in the north central Illinois area. Mr. Higgins will judge the entire show, including both five-gaited and three-gaited classes, fine harness, roadsters, parade and walking horse classes.

Over \$5,000 in cash prizes and trophies will be awarded during the four-day show.

Leslie Redshaw, Rushville, is superintendent of the fair and H. V. Loring, Peoria, is horse show manager. Mr. Loring stated early this week that more than 400 horses had been entered in the show.

Campanella Fears His Left Knee Is Broken

BROOKLYN (AP)—Roy Campanella, who last season fell down as the big gun of the Brooklyn Dodgers because of a broken bone in his left hand, was scheduled for x-rays today to determine whether he has a fracture in his left knee.

The burly Dodger catcher said he was struck by a foul tip during a series at St. Louis 10 days ago, and that the knee has given him trouble since.

Jaycees and The Nat'l Engineers Win Industrials

In the first game of the Industrial League Tuesday night the Jaycees were pitched to a shut-out over the Kilowatts by Bill Lyles, 3-0.

Lyles scattered three hits through the game, while Roberts, the loser, gave up seven.

Bud Thomas had three hits for the winners and Don (Yogi) Weller had a double and a single for batting honors. Selsor had two hits for the losers.

In the second game Parkhurst outdid Elwell in pitching chores as he led the National Engineers to a 6-3 victory over the Hudson Hornets.

In scoring the six runs the Engineers took 12 hits off Elwell while the Hornets took seven from Parkhurst for three runs.

Each team tallied a homer with Don Streeter taking the honors for the winners and Tucker for the losers.

Viebrock, B. Streeter and McKeenan all had two hits each.

Wednesday night the Jolly Welders will take the field against the Moose Club at 7:30 p.m., while the Hamm's Beer club faces the Meadow Gold aggregation at 9 p.m.

Old Favorites Return to TV This Summer

By WAYNE OLIVER
NEW YORK (AP)—It's old home week in television.

Summer replacement schedules are bringing back people and programs missing from the air for weeks and, in some cases, months.

Last night, for example, there was the old reliable combination of Bill Cullen and Place the Face on NBC. And Monday night it was Julius La Rosa, seen mostly on a guest basis since his firing by Arthur Godfrey late in 1953, starting as a regular on CBS' early evening musical show.

The perennial Arthur Murray Party came back on NBC last night to add to the air of nostalgia.

There are more to come. The half-hour dramatic show entitled Cameo, introduced in 1950 and acclaimed by critics for its innovations and excellence, returns to NBC Sunday night for an eight-week season.

One of the real pioneer programs of TV, Mike Stokely's Pantomime Quiz, returns to CBS July 8 as summer replacement for Mama.

Saturday night was a preview of things to come. There was the ample and familiar figure of Paul Whiteman as emcee on Greatest Bands of America, Jackie Gleason's CBS summer replacement. And on NBC, Dunninger began a new program featuring his mystifying mental feats of the type he did for TV audiences several seasons ago.

Desi Arnaz Is Partner In New Film

By BOB THOMAS

HOLLYWOOD (AP)—Only a few years ago, Desi Arnaz was a featured player at MGM, acting small roles in films.

Today he is a full-fledged partner with MGM as the producer of a movie, "Forever, Darling," starring himself and his talented wife Lucille Ball.

Desi and Lucy are shooting not on the MGM lot, but at Motion Picture Center. That's where they film their TV show I Love Lucy. Incidentally, they own the studio.

Lucille was playing hostess on the set, introducing fellow cast members James Mason and Louis Calhern. They play her guardian angel and father, respectively, in the film.

How does she like the switch from the TV grind to a feature film?

"It's much the same, except that I don't have a headache," she replied. "On the day of the TV show, I always have a pain right here (pointing to her left temple). It's because of all those words I have to remember."

"There's much less pressure making a film. I have time to sit down and read the paper. I can never do that when we're on the TV kick. I just don't feel that I can spare the time."

But she said she'll get a vacation after "Forever, Darling"—five weeks at Del Mar.

About future plans for I Love Lucy, she was pretty vague. "I just work here," she said. "Ask the boss."

The boss is Desi, no doubt about it. And he had the answers too. Lucy will resume in September, he reported, but they will have to make only 26 next season, compared to the usual 39. Returns of old films will take up the slack.

What comes after next year? Will the series end, as has been reported?

"I don't know what we'll do," Desi answered. "The sponsors want us to make more, but that may be enough. At any rate, we'll have to make another picture for MGM next summer."

Thug Hits Wrong Man In Middle of Night

BOWLING GREEN, Ky. (AP)—Sim Edmonds, about 50, climbed out of bed last night to answer a knock at the door and was promptly slugged on the head with a rock.

The assailant then took a closer look at Edmonds and the house and offered an immediate apology. "I not only got the wrong man, I even got the wrong house," he said.

He offered to take his victim to the hospital but Edmonds declined. He returned to bed, refusing to identify the man or obtain a warrant against him.

Blind Child Suffers Third Major Accident

HUNTINGTON, W. Va. (AP)—Resse Elizabeth Patrick, totally blind since she was 9, suffered the third major accident of her young life yesterday.

Resse, who lives in Sheridan, was in serious condition in a Huntington hospital after the front wheel of a bicycle she was on collapsed and a handle bar was driven into her abdomen.

A friend, Janice Cremons, 15, also of Sheridan, was giving Resse a ride on the bicycle. Janice was treated at the hospital and released.

Resse was born with normal vision. She lost the sight of one eye when she was small, falling on a pair of scissors. She lost the sight of her other eye at the age of 9 when she ran into a clothes line.

Return More Money Than They Had Taken

GREENFIELD, Ohio (AP)—When A. B. Collins, owner of a food market here, went to work at his store yesterday he discovered a stolen money bag containing \$15.95 and a note at the front door. The bag, containing \$25, had been taken Sunday night.

The note said the bag contained \$17.33—a discrepancy no one could figure out—and promised to return the remainder later.

"We are sorry," it added. The note was signed "A. L. and L. C."

Gets Little Help In Breaking Bad Habit

SALT LAKE CITY (AP)—Mrs. Ruth Uchida is trying to break herself of the habit of swearing. She got no help Monday night from a burglar. A piggy bank containing \$15 and a box in which Mrs. Uchida drops a penny every time she curses were taken from her apartment. The box held 40 cents. "It's things like this that make a person swear," Mrs. Uchida said.

True Western Style Gets Runaway Convict

BELLE GLADE, Fla. (AP)—Lonnie Patterson, 25, serving seven years at Glades State Prison Farm for breaking and entering, was at work in a field yesterday when he decided to make a run for it. Pete Lee, a cowboy on the ranch of Walter Schlechter, happened along on his horse, saw the escaping prisoner and gave chase. After half a mile, he planted his lasso around the prisoner and brought him down.

Sleeps Happily Under Bulldozer Dirt Pile

CHARLESTON, W. Va. (AP)—Being buried alive was all in a night's sleep for Bill Tinsley, a 55-year-old "repeater" in City Police Court.

At least, that's what the Charleston resident told police yesterday when he was pulled from beneath a dump heap on the bank of Elk River.

A bulldozer operator could hardly believe his eyes when he saw a pair of feet protruding from a pile of dirt and debris shoved to one side. His call brought two patrolmen, who began digging frantically in the dirt.

Tinsley was found near the bottom, loudly protesting the sudden interruption in his sleep. He will be arraigned today on a drunk charge.

Four Speed Reverse

VANCOUVER, B. C. (AP)—Paddy Sherman, Vancouver Province reporter, has resigned from the "Do-it-yourself" cult. He was told by an automobile mechanic he needed a new differential in his English car. He bought the parts and installed them himself. But he got them in wrong, he says. Now he has four speeds in reverse and one forward.

Moonshine Cleanup

MIAMI, Fla. (AP)—Federal agents have discovered a use for a five-gallon jug of "real moonshine" whisky strong enough to blow your head off—that was confiscated long ago in some forgotten raid. Deputy marshal Guy Hixon said his office uses it for cleaning the fingerprint board. "You ought to see how it eats that old ink off around this office."

Quick 'Hat Trick'

BOSTON (AP)—Hockey's "hat trick"—scoring three goals in one game—has been done many times but probably never as quickly in a college game by Jim Pope of Rensselaer Polytechnic Institute.

The RPI defenseman in a game with Northeastern University scored three goals in a minute and 40 seconds. His rapid fire goals gave RPI a 5-2 win.

Baever Trouble

MONTPELIER, Vt. (AP)—Beaver, once almost extinct in Vermont, are now getting so numerous they are giving town highway crews trouble.

The legislature has authorized trapping of the animals outside the regular trapping season if they

are causing damage to highways and bridges.

The animals throw up dams in rural areas and the impounded waters often flood roads, making them impassable.

Official Restitution

BETTENDORF, La. (AP)—When school officials pleaded for the return of 150 books overdue at the Junior High School library, a member of the school board showed up with two of them.

Cars Stolen Sunday From O'Connor Lot

Two used cars were stolen sometime Sunday evening from the O'Connor Used Car lot at Third and Osage. The report of the theft was made at 7:56 Monday morning by Leonard Koehing, manager of the lot.

The cars reported missing were a 1953 Mercury sedan and a 1953 Bel Air Chevrolet sedan.

The cars were apparently taken after the thief or thieves got the keys to the cars by breaking a window out of the lot office on the south side and reaching through to a box of keys.

Blood stains on some of the shattered glass led local authorities to believe that the person reaching for the keys had cut himself on the window pane.

The 1953 Mercury was found at 8:58 a. m. today parked behind the Fifth Street Methodist Church.

Fish Fry Of H and H Club Attracts 200

By Miss Pauline Chamberlin
HUGHESVILLE — The H. and H. Fish Club (Houstonia and Hughesville) met at the American Legion Hall, Houstonia, June 17th for their regular meeting and fish fry. Approximately 200 attended. The men who make up the club had invited their families on this occasion. For the entertainment feature, the Missouri Conservation Dept. showed a film on wild life. The Vacation Bible School of the Hughesville Baptist Church came to a close last Friday. The school was of two weeks duration from 1:30 to 4:30 each afternoon, except the last day when the session was held from 9:00 to 12:00 a.m. to allow for decorating for the commencement program which was held the evening of the same day. The Beginner department had 12 enrolled, with Mrs. Roy Clark, Supt. and Mrs. John Wall, Mrs. Edwin Williams and Mrs. Bob Duffield as teachers and helpers. The Primary department had 23 with 22 average attendance, with Mrs. A. F. Moon as Supt. and Mrs. Dan Smith, Mrs. Dewitt Phillips helpers. The Junior department had 24 enrolled with a very high average attendance, with Miss Minnie Hoffman as Supt. and Miss Dora Benz, Mrs. Marie Gilbert, Mrs. Charles Callis and Mrs. Roy Anderson as teachers and helpers. The Intermediate department had 12 enrolled with Mrs. B. E. Walker as Superintendent and Miss Elsie

Hunter helper first week and Mrs. Dorothy England the second. Total enrollment was 84 and average attendance 69. The commencement program on Friday evening consisted of the opening worship of salutes to the American flag, the Christian flag and the Bible, songs, scripture and an anthem. Then each of the departments gave a par on the program which was typical of the daily schedule they had been following. In the Beginner section, David Smith sang a solo, "Jesus Loves Me". One number the primaries gave was a song which was illustrated by paper puppets on the children's hands.

After the program, those present went to the basement where they viewed the handwork. Plaster plaques and burnt wood etching was the outstanding handwork made by the juniors and intermediates this year under the direction of Mrs. Wayne Davis. The love offering brought in by the children during the school amounted to \$26.05.

Mr. and Mrs. Dwight Lowrey are in New Mexico on a trip for Mr. Lowrey's health. Truth or Consequences is the name of the town where they are at present. Mrs. Lowrey, president of the Hughesville Extension club, wrote a letter to the club addressed to Mrs. Charles Rages, who read it to the members at the recent meeting. The Hughesville Extension club met last week at the school cafeteria. Some of the members worked on basketry. Mrs. Clinton Lowrey demonstrated the use of attachments on the sewing machine, also the uses of milk in the diet. Mrs. James Wiley gave a talk and showed samples of upholstery

PLYMOUTH DESIGNS WITH YOU IN MIND!

to put extra value in the low Plymouth price!

This message is for people who think all low-price cars are "pretty much alike." Of course, all cars have horns and wheels and headlights, but there's a lot of difference in the features of a car that add up to a-a-l-u-e. Here are just a few of Plymouth's features that will add to your comfort and your convenience. In the low-price 3, you'll find them only in Plymouth. Drive a new Plymouth today; see how much more its "personalized design" gives you!

Cornerposts of Plymouth's glamorous new Full-View windshield are swept back, top and bottom (not bottom only), for better, safer vision.

Plymouth's Oilite fuel filter is located back in the fuel tank (not on the engine) to protect the entire fuel system and engine from dirt and water.

The PowerFlite Range Selector is mounted on the dash, near the ignition key—the logical place for easiest use. You can change speed by touch alone!

For more direct pillowing action, Plymouth mounts the longer-stroke front Oriflow shock absorbers inside the big front coil springs.

Plymouth places two hydraulic brake cylinders in each front wheel (other low-price cars use only one) for smoother stops, greater reliability.

PLYMOUTH OTHER CARS

If you ever have a blowout, your Plymouth has Safety-Rim wheels which help hold a deflated tire on the rim while you slow to a safe stop.

Plymouth's brilliant Forward Look styling gives you better forward visibility by letting you see more of the road directly ahead of the car.

Plymouth is the BIGGEST, LONGEST, ROOMIEST car of the low-price 3. In fact, you can pay as much as \$500 more for a medium-price car that's smaller than Plymouth!
